---

and has been there for over 20 years. He states that he has been in the Valley since the mid-90s as a research associate and married, two kids, five dogs and that he is interested in cleaning up the watershed.

District Counsel Cushman asks if Director Bryant has been sworn in yet and he responds by saying that he had not at which point District Counsel states that he will just be an observer for this particular meeting.

## **II. ACTION ITEMS**

**Item 1: Discussion and potential approval of a new office manager.** President Corona STATES THAT Deb Getty the current office manager will be leaving TEAM RCD to pursue other opportunities in her career. President Corona also stated that temporarily she has someone to do the typing etc for the time being but since there is no one permanent at the moment she asked to table the item and move to the next item.

**Item 2: Discussion and Update on Arundo Removal partnership with Mission RCD.-** President Corona reminded the Board of a partnership with Mission RCD using the Long Term Streambed Agreement in coordination with a grant they had where they needed to use the monies to finish off the grant requirements. They found a project in our area and with our supervision through James Law, the removal has been completed and TEAM RCD is just waiting for the final reports which will be included in the 2022 CDFW reports. Billing to Mission RCD will be forwarded once billing is received from SAWA.

**Item 3: Update on MOU with Coachella Valley-**President Corona reported that the MOU with Coachella Valley passed their Board and has been signed and delivered. The collaboration would be a backstop and help to Mission RCD if there were a time that Luis at Mission would need help in doing the water audits.

**Item 4: Update on the Annual audit.-**Director Parkes summarized the Annual Audit as follows. The audit is based on an end date of June 30 explaining that the auditors prepare an overview of the plan, scope and timing for the financial statement audits. He noted that they adhere to generally accepted accounting principles which includes discussions with management and bookkeeping. He said that the audit went well and the auditors encountered no disagreements or significant issues or difficulties in performing their audit and that no audit adjustments were noted or necessary. Director Parkes also said that the important information to note was that the net position of the District increased by \$116,613.00 during that year or an 8.66% increase. Also, the net position of the District increased to \$1.436 million over the year.

Director Biancardi ask if a large chunk of the income came from the existing Flood Control contract in which the response was yes however, President Corona pointed out that the District also gets quite a bit of funding from the AEIP, Crop Swap and Rootstock programs that are run in collaboration with the Rancho California Water District. President Corona also explained briefly the history of the Board prior and their finances prior to 2014 and what TEAM RCD had done going forward to be more transparent with the County in order to assure compliance and transparency with their books. President Corona also went on to explain how the Flood Control projects came about and, with input from AD Neugebauer explained how the District works on a "fee for service" basis.

Director Parkes added additional information regarding how profits and losses are reflected in the audit due to the fact that work on many of these projects are confined to specific times of year due to nesting season and CDFW restrictions therefore some months may look like a loss, but only because the work has not been billed or TEAM RCD did not receive revenue for that work in the month that it was done. Further, she explained that how the initial projects expanded for Flood Control and how many of the projects came under budget which allowed left over funds to be used again at existing sites to get some of the vegetation under control and it also which included bi-monthly monitory for homeless which is ongoing. This assists the community outreach and homeless task forces to be made aware of encampments and work toward moving and assisting those homeless prior to it expanding out of the control of the local law enforcement and community services.

**Item 5-Discussion and potential discussion for hiring a new bookkeeping company-**With the departure of the office manager, the President has found an affordable bookkeeping company called New Options which is an independent bookkeeping company owned by Rae Shirer keeping the existing rate that the former office manager was paid. After a motion by the President, and a second by Newt Parkes. Motion passed 4-1.

**Item 5-Update on Greer Ranch/Adeline Farms/Benton Channel monitoring-**AD Neugebauer reported that the year end bio-monitoring reports had been forwarded to CDFW and they are completed and done for the 2021 year. The report says that the water flow on Adeline Farms although pretty full in December there weren't any major problems out there with any of the conservation easements. President Corona added that Greer Ranch has quarterly monitoring and that work for those projects will be slated at a time that works around nesting season. This would include some invasive removal at Greer Ranch and that we plan to work with SAWA to do some habitat restoration in the Adeline Farms area. After giving a brief overview of a potential long term project that would use existing "urban slobber" from the outlets from the tract homes, President Corona said she would be reaching out to Army Corps for a potential meeting to see what can be achieved in this area.

**Item 6-Update on yearly CDFW reporting-**President Corona noted that all the appropriate reporting to CDFW for all projects for 2021 were submitted on time with the exception of the Arundo Removal which still had some work to be done in January. This work will be reported to CDFW on the 2022 reports. There was a small issue regarding an overpayment of \$360.00 but the agency is looking into it to see if reimbursement is applicable.

## **NEW BUSINESS**

**Item 1-Form 700 submittals-**Outgoing office manager reminded the Board to submit their Form 700's by April 1. No motion necessary.

**Item 2-Discussion on Potential Grant with Cal-Recycle for Anza/Aguanga/Area-** Director Biancardi proceeded to inform the Board of a potential grant with Cal-Recycle called the Farm & Ranch Solid Waste Abatement Grant Program that she has been working with President Corona on. The program provides grant funds for removal of unauthorized solid waste disposal that has occurred on a farm or ranch parcel(s), property is in need of cleanup to abate a nuisance or public health and safety threat and/or a threat to the environment, Property is zoned or otherwise authorized for agricultural activities.

The grant possibility was brought to the attention of President Corona in late January when she was contacted by Stephanie Becker with Cal-Recycle who had been contacted by a citizen in our District who had her unauthorized waste left on her property which is located within the district. After phone calls with CalRecycle, AD Rick Neugebauer who checked the APN's, the owner of the property and contacting SAWA to do a site inspection, Ms. Corona arranged a phone call with Cal-Recycle, Director Biancardi, since this was her assigned area, Jeff Brandt from CDFW and James Law from SAWA to discuss the possibility of applying for the grant based on information gathered.

The timeline was very short (one week) and Director Biancardi along with James Law were asked to put together a budget for this project and Director Biancardi along with Director Corona would fill out all the applicable paperwork by Nov. 10 with the exception of a final motion to approve the grant application as submitted and the accompanying resolution which needed to be passed by this meeting. The budget was an estimate based on site inspection and SAWA would be using the California Conservation Corps to do some of the work. All paperwork was submitted to CalRecycle by November 9<sup>th</sup> in time to make the deadline with a written copy of the approved resolution to follow after the meeting.

President Corona asked Director Biancardi to make a motion to approve the grant submission and the resolution. Director Parkes seconded the motion. No further discussion. Unanimously approved 4-1.

**Item 3-Update on increase in Liability Insurance-** Director Parkes gave a report about the update on the increase in liability insurance from SDRMA. In 2021 we paid \$2650.00 roughly and this year's amount will be between \$3,052 to \$3244.00. AD Neugebauer asked what the limits were and Director Parkes said he didn't know but would find out. Director Parkes said that Errors and Omissions insurance was covered in this policy.

#### **OLD BUSINESS**

**Item 1-Update on Temecula Elementary invasive removal project and Empire Creek Project-**President Corona updated the Board about the progress of the invasive removal near Temecula Elementary. There is nothing to report at this point and TEAM is waiting for a response from CDFW to see if some of the limbing of the trees can go higher to allow law enforcement and the school to see within the channel that needs the vegetation removal. No motion necessary.

**Item 2-Update on Clinton Keith Property and Rivers and Lands Conservancy-**President Corona and AD Neugebauer hosted a phone call with RLC on January 22 to discuss further the possibilities of RLC obtaining the 75 acres from TEAM RCD. The meeting went well and RLC will be waiting for more information for a future discussion. President Corona explained the background to the Board on how the property was obtained and the outstanding issues that still need to be addressed. TEAM RCD is waiting for that information to be pulled from the CDFW archives at which point the former contact for CDFW, Jeff Brandt, will be discussing it with the current contact Heather Pert in order to get her up to speed on the history of this property in order to move forward. Nothing more to report until more information is obtained.

**Item 3-Homeless Monitoring report-**Director Parkes reported that there was not much new other than there have been 3-4 sites where homeless and transient activity seem to be consistently showing up. That would be Tualota Creek 3, Santa Gertrudis Channel and the Temecula Creek AD 159. He noted

that although he consistently makes the task forces aware of the activity there does not seem to be much change in that TEAM RCD has no enforcement responsibilities. Director Parkes said that the Task Force headed by Mike Wooten they had taken some action but not all of the places but they are on the priority list. He suggested that we have the Mr. Wooten and the Task force attend one of our meetings and discuss their goals and mission at one of the meetings. President Corona asked Director Parkes to reach out as to a convenient time for them to attend.

Continued conversation included the good work that is going on in Lake Elsinore and "The Anchor" project there and Damien Fussel from Supervisor Jeffries office spoke on how the new redistricting may change how homelessness in Lake Elsinore is going to be addressed since two supervisors will be sharing that particular District.

**Item 4-SAWA Report-**AD Neugebauer noted that there was nothing to report, that it had been reasonably quiet with ongoing things that SAWA does with a lot of people working remotely. He indicated that Hames is probably the big force of nature that keeps all the projects going which reflects with the income revenue and profit stream. End of report.

At this time President Corona asks District Counsel how to allow Director Biancardi to do her report on Anza/Aguanga since Director Corona missed putting her report into the agenda. Director Biancardi said she had nothing to report but wanted to make a comment on the SAWA report. District Counsel commented that if Director Biancardi had nothing to report then that that would be fine but she could make a comment on one of the other items.

President Corona allowed Director Biancardi to make her comments. Director Biancardi was concerned about a pending item at SAWA regarding Category A Directors which had come up at a previous SAWA meeting at which she made a public comment requesting that there be no vote on the item until the TEAM RCD Board had a chance to review it. AD Neugebauer responded by outlining his authority given to him by the Board by majority vote to represent TEAM RCD and his capacity as President of the SAWA Board to put forth an agenda for the SAWA Board to continue forward with their business as a separate entity. After further exchanges, the Board then moved on to the next item on the agenda.

**Item 5-Update on AIEP, Crop Swap Reports-Randy Feeney/Deb Getty-** Director Feeney is taking over the Water Audit and Crop Swap programs that were formerly administrated by Director Lisa Battiato. Director Feeney reported that Deb Getty had had a short training time with him and he was just getting up to speed. Not a lot was going on right now but soon the Rancho Water District would be gearing up and doing their annual marketing and advertising to growers. No motion necessary

#### **FUTURE AGENDA ITEMS**

None reported.

#### **ADJOURNMENT**

President Corona asks for a motion to adjourn. Director Parkes moves, Randy Feeney seconds. Unanimously approved 4-1. Meeting adjourned 5:01 p.m.

**SUBJECT: 2021 Government Compensation in California Report**

Dear District Fiscal Officer:

This letter is to provide your office with the necessary information for preparing the Government Compensation in California (GCC) report for calendar year 2021. If you are not responsible for completing the GCC report, please route this letter to the appropriate department (e.g., Payroll or Human Resources). **If your district does not have any paid employees, or elected officials that received pay reported on IRS form 1099, please submit a report listing the Board Members.**

Government Code section 53891 requires local agencies to submit completed reports for the previous calendar year to the State Controller's Office (SCO) no later than April 30. Please submit your 2021 GCC report by **April 30, 2022**.

The 2021 GCC reporting templates and instructions are available on the GCC website at <https://publicpay.ca.gov/Reporting>. Please review the GCC reporting instructions prior to creating your report. To submit your report using file transfer protocol, use the file folder address <ftp://sd28wstc:PM637dpzq5@ftp.sco.ca.gov>.

For questions about the GCC reporting requirements, please contact the GCC Unit at [GCCsupport@sco.ca.gov](mailto:GCCsupport@sco.ca.gov) or (916) 445-5153. Additional information is available on the GCC website ([www.publicpay.ca.gov](http://www.publicpay.ca.gov)).

Sincerely,

Post Office Box 2078  
Temecula, California 92593

Dear Ms. Corona,

As one of our complimentary MemberPlus Services™, each year SDRMA provides all of our members with an updated California Federal Employment Notices Poster that includes all the important state and federal laws and regulations. The U.S. Department of Labor recently signed into law on February 19, 2022, regulations concerning **2022 COVID-19 Supplemental Paid Sick Leave**.

Covered employees in the public or private sectors who work for employers with 26 or more employees are entitled to up to 80 hours of 2022 COVID-19 related paid sick leave from January 1, 2022, through September 30, 2022.

An informational poster has been developed, and all applicable employers are required to display the poster where employees can easily read it. For your convenience, the poster is available in English and Spanish and can be downloaded or printed from [MemberPlus™](#) under the QUICK LINKS dropdown, in the LABOR LAW POSTER section.

For other important information relating to COVID-19, check out the COVID-19 INFORMATION section, also under QUICK LINKS. SDRMA will continue to update this information as necessary.

Please contact us at [memberplus@sdrrma.org](mailto:memberplus@sdrrma.org) or 800.537.7790 if you would like to request a printed copy of the informational poster.

On behalf of the SDRMA Board of Directors and staff, we hope you take care and stay healthy.

Sincerely,

Special District Risk Management Authority

Laura S. Gill  
Chief Executive Officer

#### It's the Law: Update Your Public Agency Registry

Has your special district welcomed new board members, trustees, or board secretaries to your ranks in the past year? New board members mean new disclosures. Every local agency has a legal obligation to disclose basic information about the agency and its current officials to the county clerk and the California Secretary of State. Government Code section 53051 requires local agencies, including special districts, to update their Registry of Public Agencies document (previously known as the Statement of Facts - Roster of Public Agencies document), which must be filed with both the Secretary of State...

MONDAY OPENS WITH  
GENERAL SESSION

February 15, 2022

The first General Session of the NACD 2022 Annual Meeting opened on Monday, February 14. **Immediate Past President Tim Palmer** presided over the session, welcoming members, partners, and all attendees to Orlando. Each state and territory was welcomed with the Parade of States. This procession is our tribute to the 50 states, seven territories, and the District of Columbia in which our conservation districts and state and territory association members serve in year-round. The Association of Florida Conservation Districts President Jeff Moore then gave the Florida welcome.

**NACD President Michael Crowder** spoke to guests about the progress NACD has made and where the association is looking to go in the future in his President's address. This was followed by **NACD CEO Jeremy Peters'** address, where he discussed the meeting's theme of "Conservation Defined for All," and what it means.

**Ducks Unlimited CEO Adam Putnam** gave the keynote address, highlighting the importance of partnerships. "We are all in this together," said Putnam. "We are better off for the passion and the sacrifice and

## NACD LEADERSHIP LUNCHEON FEATURES CONSERVATION EXPERTS AND AWARD WINNERS

During the 2022 Leadership Luncheon on Monday, February 14, attendees heard from **Toni Stanger-McLaughlin**, Native American Agriculture Fund (NAAF) Chief Executive Officer. Stanger-McLaughlin spoke about NAAF's initiative and work in conservation.

"You are the boots to the ground," said **Stanger-McLaughlin**. "Any policy that's put forth in this space needs to be put forth through the lens of those that are administering it every single day - and that's producers, our farmers, and our ranchers."

After lunch was served, **NACD Secretary-Treasurer Gary Blair** announced states and territories who achieved 100 percent district participation in Fiscal Year (FY) 2021. He also recognized the top 10 contributing states in FY 2021.

Three new individuals were inducted into the NACD Hall of Distinction during this session as well. Those new inductees are:

- Mark Hedrich of Maine;
- John Redding of Georgia; and
- John Peterson of Virginia

The inaugural cohort of the Next Generation Leadership Institute (NGLI) also graduated at today's luncheon. Following their graduation, the cohort presented a check for \$8,400 to **National Conservation Foundation Chair Brent Van Dyke** to help fund the next cohort of conservation leaders.

## NCF AUCTION

### Program Recipients Announced

NACD District Operations and Member Services (DOMS) Committee **Chairman Franklin Williams** announced the 2022 Friends of NACD District Grant Recipients during today's Leadership Luncheon.

The Friends of NACD Program was established in 2009 as an initiative of the DOMS Committee to support the nation's nearly 3,000 conservation districts through cash donations to NACD. Now in its third round of funding, the Friends of NACD District Grants Program enables a portion of funds raised through individual donations in support of locally led conservation to be awarded to eight conservation district projects of up to \$2,500 each. That number has doubled from the amount of grants issued last year as a result of the generous donations NACD has received.

## TUESDAY OPENS WITH GENERAL SESSION

February 16, 2022

**NACD Offices  
Closes Monday for  
Presidents Day**

Tuesday morning's General Session of the 2022 NACD Annual Meeting featured a variety of conservation and natural resources experts. Presided over by **Second Vice President Ian Cunningham**, speakers included private and federal partners important to the conservation movement in addition to a panel discussion concerning water quality and conservation.

**Agriculture Future of America (AFA) President and CEO Mark Stewart** spoke with the audience about the importance of training college students and the next generation to be leaders in the agriculture and conservation fields particularly through the newly established AFA + NACD Sustainability Institute.

Addressing the recurring theme of the event of partnerships and collaboration, **Sand County Foundation Vice President of Agricultural Research and Conservation Heidi Peterson** highlighted the newly signed memorandum of understanding (MOU) between

NACD's offices will be closed next **Monday, February 21**, for Presidents' Day.

NACD and the Sand County Foundation. This partnership will help both organizations to collaborate on program outreach and conservation initiatives, including Sand County Foundation's Leopold Conservation Award program and the Land Ethic Mentorship for historically underserved farmers and ranchers.

The General Session hosted a panel discussion surrounding water quality and quantity concerns moderated by **National Association Farm Broadcasting (NAFB) President Spencer Chase**. Panelists included **Adam Herges** with Mosaic Company, **Deirdre Irwin** with the St. John's River Water Management District, and **Christopher Pettit** with the Florida Department of Agriculture and Consumer Services. Each shared their unique experiences, perspectives, and optimism related to ongoing partnerships and collaborations to address conservation concerns within the water quality conversation.

NACD was joined by **Bureau of Land Management Director Tracy Stone-Manning**, who expressed the importance of everyone shouldering the responsibility of take care of our land.

The General Session keynote was given by **Natural Resources Conservation Service (NRCS) Chief Terry Cosby**, who provided a federal update related to conservation and agriculture, particularly related to the Partnerships for Climate-Smart Commodities newly announced by the U.S. Department of Agriculture (USDA).

"We're better together than we are apart," **said Chief Cosby**.

Rounding out the event was the presentation of the Earth Team Award, which is presented annually to those who volunteer their time, resources, and energy to protect and improve the quality of natural resources. This year's Earth Team Award winner was **Montgomery Soil Conservation District** from Derwood, MD.

## Are You the Next Emerging Leader?

The Emerging Leader brings people together and seeks to expand our collective understanding of the value and social context of water in their communities. They strive to build knowledge and capacity in their communities through various methods (e.g., events, social media, community groups).

Above all, they're someone who shows tremendous promise in the world of water protection and empowers others to make change.

## Want a water conference experience before Rally?

### Mark your calendars for the 2022 CWP National Conference in St. Pete, Florida, April 26-29

The 2022 National Watershed and Stormwater Conference will provide a forum for watershed and stormwater professionals throughout the nation to learn how to increase the resiliency of our communities in response to emerging and persistent threats to our water resources — from headwaters to coasts. Network with water resource managers, practitioners, researchers, and regulators from all over the United States. The conference will include technical presentations, case studies, panel discussions, and workshops.

### **February Take Action Brief**

State Legislators hurried to propose hundreds of new laws before the February 18 bill introduction deadline. CSDA is reviewing each and every one of them and will begin taking positions at its March 4 Legislative Committee meeting. Keep up with the action by joining CSDA's Secondary Legislative Committee email list and review all of the bills CSDA is tracking at [csla.net/bill-tracking](https://csla.net/bill-tracking). As we await new bills crossing the desk in the State Senate and Assembly, there is plenty of work to do in February, CSDA's *Take Action* Month. Learn more in this brief about how you can prepare your special district. Additionally, CSDA has updated its COVID-19 relief funding toolkit to provide members with the best tools and best practices for requesting your county transfer a portion of the more than \$7 billion counties received in American Rescue Plan Act funding from the federal government.

SPECIAL DISTRICT RISK MANAGEMENT AUTHORITY

## RISK MANAGEMENT NEWS

Property/Liability, Workers' Compensation & Health Benefits for Public Agencies | Established 1986

### RQ Credit Incentive Deadline

If you have not yet submitted the 2022-23 Renewal Questionnaire, the **February 15, 2022 deadline** to earn the \$75 credit per program for submitting the Renewal Questionnaire (RQ) is fast approaching.

Your participation in providing updated, accurate and timely information will enable us to provide your agency with an **estimated renewal cost/indication** in late March. However, we will not be able to issue an indication to your agency if the RQ is not submitted by the **final March 1 deadline**. Failure to submit the RQ by March 1, 2022 will result in your agency being subject to a cap in coverage and penalty charge.

If your agency's RQ is completed and submitted electronically through **MemberPlus™** by **February 15, 2022**, a **\$75 credit** will be applied on the Property/Liability and/or Workers' Compensation 2022-23 renewal invoice. *RQ submissions received after February 15, 2022 will not receive the credit incentive.*

Login to **MemberPlus™** and click on the RENEWAL QUESTIONNAIRE drop down to access your agency's RQ. **The final deadline to submit the 2022-23 RQ is March 1, 2022.** You will not receive a hard copy RQ packet in the mail. Please contact us [memberplus@sdrma.org](mailto:memberplus@sdrma.org) or 800.537.7790 if you would like to request a hard copy RQ.

**Important reminder:** Also available in **MemberPlus™**, under the QUICK LINKS dropdown you will find important information for your review, including **Important Dates** to remember, **Credit Incentive Program Criteria**, and your agency's **CIP Status Report**. The deadline to earn CIP credits for the 2022-23 program year is March 31, 2022.

Members considering withdrawal from the Property/Liability and/or the Workers' Compensation Program are required to submit a "Notice of Intent to Withdraw" according to the SDRMA Bylaws by April 1 or the notice will not be valid. This notice can be sent via email or mail, and can be rescinded up until June 1, 2022, giving your agency enough time to obtain quotes and consider options. *We require the submission of the RQ by March 1, even if a Notice of Intent to Withdraw is submitted, so that we may provide your agency with an accurate renewal indication for your consideration.* For questions about the SDRMA withdrawal policy, please contact our Chief Member Services Officer, Ellen Doughty at [edoughty@sdrma.org](mailto:edoughty@sdrma.org).

Please contact Member Services if you need assistance or have questions at [memberplus@sdrma.org](mailto:memberplus@sdrma.org) or call 800.537.7790.

### Important Update - Cyber Liability

If your agency is a member of the SDRMA Property/Liability Program with Cyber Liability Coverage in effect, you should have seen information on the 2022-23 Cyber Liability Coverage renewal that would

require a separate renewal application through the Alliant Cyber Liability Portal.

We recently learned that our existing Property/Liability program members that currently have Cyber Liability Coverage are not required to complete this application for the upcoming renewal. However, we encourage you to review and complete the Alliant Cyber Liability Application in preparation for the 2023-24 renewal.

In the next few weeks, you should receive an email directly from Alliant, with a link to the Cyber Liability Application Portal. If you do not, please contact us at [memberplus@sdrma.org](mailto:memberplus@sdrma.org) to request the link be forwarded to you.

Not all SDRMA Property/Liability members currently have Cyber Liability Coverage. If you are unsure of your agency's coverage, please reference the Certificate of Coverage for clarification. You can view your agency's Certificate of Coverage through [MemberPlus™](#) under the COVERAGE DOCUMENTS drop down.

If you have any questions, please contact us at [memberplus@sdrma.org](mailto:memberplus@sdrma.org) or 800.537.7790.

**2022 Spring Education Day**

The SDRMA Spring Education Day will be an in-person event on **March 22, 2022** in Sacramento. Free to SDRMA members, the **SDRMA Spring Education Day** will include risk management training relating to Property/Liability and Workers' Compensation, including our Safety Specialist Certificate Program. [Register](#) today!

Attendees can choose between three registration options:

- **Supervisory Safety Specialist Certificate Program**
- **Governance Foundations Workshop**
- **Keynote Presentation "Ten Families of Risk" and Breakout Sessions**

In addition, the SDRMA Board of Directors will conduct their Annual Membership Meeting that will include current insurance market updates and important upcoming renewal information for the 2022-23 program year. Members that attend the Spring Education Day are eligible to earn **Credit Incentive Points** (CIPs) to reduce their annual contribution for both the Property/Liability and Workers' Compensation Programs.

Take Your District to the Next Level

**Level Up in 2022  
District of Distinction Accreditation  
starts with your  
Transparency Certificate of Excellence!**

**Challenge Timeline = February 15, 2022 through November 30, 2022**

In a time where proper fiscal management and responsibility in public agencies is paramount and the task of governing these agencies has become even more complex, regulated, and costly, it has become increasingly important to demonstrate to constituents that districts have sound fiscal management policies and practices in place among other areas of importance in district operations.

**The SDLF District of Distinction (DoD) is designed to help your district do just that!**

**Three Steps to Distinction**

1. Commit to the Districts of Distinction Challenge
2. Complete the Transparency Certificate of Excellence Checklist
3. Complete the District of Distinction Application

**WHAT DOES A PARTICIPATING DISTRICT RECEIVE?**

- A professional plaque for public display at the district
- Use of the SDLF District of Distinction recipient logo on the district's website, social media platforms, letterhead, and/or other public outreach materials

- Presentation of the plaque at a district board meeting or the CSDA Annual Conference
- Recognition on social media and in the CSDA eNewsletter

\*In addition, SDLF will randomly select ten (10) participating special districts that meet the challenge by November 30, 2022 to receive the following additional benefits:

- A district highlight and article in an issue of *California Special Districts magazine*
- Special recognition and highlight on the SDLF website
- Announcement of your district's achievement in a special SDLF press release sent to major newspapers in your area and statewide
- A letter sent from SDLF directly to your California legislators and county Local Agency Formation Commission (LAFCo) notifying them of your district's accomplishment

## **Homeless Task Force**

January 20, 2022

8:00 to 9:00 a.m.

### **1. Introductions**

### **2. 2022 Task Force Objectives**

- a. Brainstorm our top three priorities in the coming year.
- b. Topics of consideration could include exploring a regional solution to substance abuse and mental health challenges, areas of focus for street outreach e.g. Elm Grove Beach, expanding outreach capabilities, a new program or services, education and outreach targets, promoting incentives to landlords, securing funding or starting programs for at risk homeless, identifying needs for youth, or seeking new partnerships.
- c. **Objective Ideas and Notes from Task Force:**
  - i. Work to consistently house more individuals and utilize additional rooms at The Anchor. (Bridget Moore - Wildomar)
    1. Response from Aaron: SWAG operates a "needs-based" approach, which is a slow process. Sometimes the Outreach Team has to bring in an individual daily for showers and meals to allow them to get comfortable before they are willing to accept housing.
    2. This process was used with Richard to convince him to accept help. - Mentioned that Richard might be at a housing facility in Perris now.
    3. Use those living at The Anchor to promote and encourage others.
  - ii. California has grown from 89,000 to 113,000 homeless individuals in the last few years. We need to evaluate if what we are doing is or isn't working, and if not, how do we change our approach? Why is this number growing? (Joseph Morabito - Wildomar)
    1. It's important to capture individuals experiencing different level of homelessness, including sheltered homeless individuals and those on the verge of experiencing homelessness.
  - iii. Housing Ideas:
    1. The Oxford House – Compound in Kentucky, self-governed, self-supported recovery housing capturing people at multiple levels, with locations in 49 states, except for California.
    2. Save the Need Foundation establishing a 60,000-person homeless village on 900 acres in Lancaster.

- iv. The HIF needs to investigate our data to establish and improve protocols and infrastructure for those less seen. (Agnes Williams)
  - 1. Cal-Works CDSS can help establish data methods, assist with reporting, and work to develop new programs, with a greater emphasis on youth.
- v. Addressing homelessness is a 3-prong approach. Funding for the Sheriff is necessary to allow them to perform weekly outreach and clean-ups with SWAG and Code Enforcement.
  - 1. SWAG is essential for their success due to the need for continuous following-up with individuals, as we know many are unwilling to accept help initially.
    - a. Anthony was contacted several times about services and offered housing, however he wouldn't accept until Angelica stepped in.

Elsinore Murrieta Anza RCD  
PO Box 2078  
Temecula, CA 92593

This correspondence is to notify you that on April 21, 2022, the Riverside County Treasurer-Tax Collector will be having a tax sale for tax-defaulted properties.

You may have the right to purchase certain properties within your district, under the Provisions of Division 1, Part 6, Chapter 8, beginning with Section 3771, of the Revenue and Taxation Code, State of California. Immediately upon receipt of this notice, please check each parcel carefully to determine if you intend to exercise your right to purchase by Agreement.

Please check to see if there are properties currently in use or maintained by your agency which have been deeded to you. These properties may entail unaccepted dedications of properties or easements. If any such parcels exist within your city or agency, we must know about them as soon as possible. By examining the properties promptly you will have adequate time to properly research each parcel and determine your requirements well in advance of the public auction. **To view and obtain files for our inventory of parcels that are subject to the Power of Sale and to access our new interactive parcel map, please visit our website at [www.countytreasurer.org](http://www.countytreasurer.org). From the homepage please navigate to and click on the "Tax Collector" tab > "Tax Sale Information" > "Parcel Inventory."**

If you intend to initiate action to acquire any parcel(s), notify the undersigned by completing the enclosed "Application to Purchase Tax-Defaulted Property from County." Please check the box applicable to your purchase and submit by February 23, 2022. Be sure to include all documentation according to the selections you have made.

Please do not telephone us to request purchase prices, as we will be unable to determine the purchase price without a review of the property.

Thank you in advance for your cooperation.

Sincerely,

3. Adopt Resolution No. 2022-023, a resolution of the Board of Supervisors of the County of Riverside approving the sale of tax-defaulted property subject to the power of sale and setting the minimum bid, and
4. Instruct the Clerk of the Board to immediately forward a certified copy of the Board's Resolution to the Treasurer-Tax Collector following Board approval.

The above action will authorize the minimum bid on regular tax-defaulted parcels to be offered for sale via the Internet with Bid4Assets, Inc.

MINUTES OF THE BOARD OF SUPERVISORS

**SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE,  
STATE OF CALIFORNIA**

- a) Three hundred eight **(308)** or fewer fee parcels will be offered for a minimum bid of cost of sale only.
- b) One hundred thirty-five **(135)** or fewer fee parcels will be offered at a minimum bid of taxes only, plus cost of sale.
- c) Sixty-nine **(69)** or fewer fee parcels will be offered at a minimum bid of \$100.

In general, the financial impact of tax sales can be summarized as follows:

- Sales at, or above, the amount of taxes owed have no direct negative impact on the County's budget.
- For this sale, if all parcels being reoffered for cost of sale were to sell for only the minimum bid, the maximum tax loss would be \$4,641,199. Considering the Teeter formula, which shares this loss with other taxing entities, the maximum loss of the Tax Loss Reserve Fund would be \$3,073,046. Parcels reoffered for taxes only, plus cost of sale will not realize a tax loss.
- Accordingly, there should be no direct impact on the County General Fund because reserves exceeding the amount have been set aside.
- The Tax Collector has determined that parcels which are offered for a minimum bid of \$100 should stimulate interest through the online auction. All parcels in question have previously been offered for sale, most on multiple occasions, without garnering any bids. The \$100 minimum bid is purposefully set low, in order to generate interest. It is likely that final bids will far surpass the \$100 minimum.
- There will likely be minimal impact upon the Tax Loss Reserve Fund itself. Based upon recent experience, this sale is not expected to realize the maximum loss for three reasons: (1) properties are inevitably pulled from the sale due to various reasons including taxpayer redemptions; (2) some parcels will sell for more than the minimum bid; and (3) other parcels are likely to receive no bids. For example, in previous tax sales, the maximum loss to the Tax Loss Reserve Fund for 2019-2020 was \$2,640,703; however, the realized loss was \$499,824 - only 19% of the maximum loss. Similarly, the maximum loss of the Tax Loss Reserve Fund for 2020-2021 was \$2,123,552; however, the realized loss was \$228,437 - only 11% of the maximum loss.

**Impact on Residents and Businesses**

The purpose of offering tax-defaulted properties is to collect unpaid taxes and return the property to a revenue-generating status by conveying the property to another owner or motivating the assessee to redeem.

**ATTACHMENTS (if any, in this order):**

WHEREAS, the Tax Collector of Riverside County intends to sell tax-defaulted property subject to the power of sale at public auction on April 21, 2022 through April 26, 2022 over the internet; and,

WHEREAS, the Tax Collector requests that the Board of Supervisors of the County of Riverside, State of California approve the intended sale and any postponement of the sale that may be necessary; and,

WHEREAS, Tax Sale List TC 218 Sale File 4484, which is attached hereto as Exhibit "A", sets forth the property declared tax-defaulted with the year of the tax default and the parcel identification number; and,

WHEREAS, notice of the proposed sale will be sent to the State Controller in accordance with Section 3700.5 of the California Revenue and Taxation Code; and,

WHEREAS, the Tax Collector, in his discretion, has determined that the property specified in Exhibit "A" attached hereto and incorporated by reference and constituting six hundred seventy-eight (678) fee parcels should be offered for sale from April 21, 2022 through April 26, 2022, with the minimum bid to be in accordance with California Revenue and Taxation Code Section 3698.5; and,

WHEREAS, California Revenue and Taxation Code Section 3698.5 provides that, where property has been offered for sale at least once and no acceptable bids have been received at the prescribed minimum price, the Tax Collector may, in his discretion and with the approval of the Board of Supervisors, offer that same property at the same or next scheduled sale at a minimum price that the Tax Collector deems appropriate in light of the most current assessed valuation of that property or any unique circumstance with respect to that property; and,

SAN DIEGO STATE FIELDSTATION

PROJECT BACKGROUND

The San Diego State Field Station (or the Santa Margarita Ecological Reserve, SMER) is located along the Santa Margarita River, downstream of Murrieta, CA. Part of the facility is in Riverside County and part is in San Diego County. This report covers the Riverside County portion of the Arundo treatment work. The riparian area is a deep rocky gorge, it has perennial flows and high value riparian habitat dominated by native vegetation. It is jointly managed by San Diego State University and CDFW. The area has scattered clumps of Arundo and is upstream of areas that once had over 800 acres of Arundo in San Diego County (Camp Pendleton, San Diego County Parks, and Wildlands Conservancy properties). Mission Resource Conservation District joined with Team RCD in Riverside to jointly treat these scattered clumps of Arundo using a Wildlife Conservation Board Prop 1 Grant (held by Mission RCD).

**Amount removed/treated:** approximately 1.9 acres of giant reed was treated during this reporting period.

**Treatment frequency and timing:** During this reporting period, treatments occurred on 12-28/29/30-2021.

**Disposal of removed/treated biomass:** Due to the small size and remote locations of the Arundo stands being treated, biomass was left on site and allowed to dry and decompose in place.

**Monitoring Activities:** Mission RCD staff and a biological consultant (Jason Giessow, Dendra Inc.) carried out an educational resources review with the crew and reviewed all permit conditions prior to work starting. An on-site tour of access and site logistics was also completed. Crews were checked daily and field station staff were notified daily when crews were done for the day.

PROJECT STATUS

This Arundo treatment was funded with WCB Grant funds. An effort will be made to re-treat the area in a year or two. The efficacy (effectiveness) of the treatment should be quite high as foliar application is the most effective treatment method. Other scattered perennial non-natives were observed (fan palms, bottle brush tree, and pampas grass), but in general perennial non-native plant cover was extremely low. These should also be treated, but this work was outside of grant funding (Arundo only).

**Project Location - City:** \_\_\_\_\_ **Project Location - County:** San Diego and Riverside counties

## Description of Nature, Purpose, and Beneficiaries of Project:

This project involves the control of invasive non-native plants (mainly *Arundo donax*) in the Santa Margarita and San Luis Rey watersheds. Non-native plants pose a serious threat to the native flora and fauna. The Mission Resource Conservation District and the Santa Margarita and San Luis Rey Watersheds Weed Management Area are working towards achieving (continued on next page)

**Reasons why project is exempt:** This project is exempt under Section 15061 (b)(3) which states that "CEQA only applies to projects which have the potential for causing a significant effect on the environment." A significant effect on the environment is defined as a "substantial adverse change." Removal of invasive non-native plants has a beneficial effect (continued on next page)

non-native plant control on a watershed scale. It is only at this level that non-native plants will be effectively removed from the riparian systems. If control is not carried out from the top of the watershed to the bottom, then upstream sources will re-infect areas downstream that have been cleared. The goal of this project is to bring together all stakeholders in the watersheds and to remove invasive non-native plants to restore the habitat for the native flora and fauna, to reduce the risk of fire and flooding damage, and to reduce the amount of non-native plant debris on the beaches. The beneficiaries of the project will include: the native flora and fauna due to restored native habitat, the communities within the watersheds due to improved recreational opportunities, and the cities, water districts and fire departments due to less damaging flood and fire events.

## Reasons why project is exempt:

(Continued from page 1)

on the environment, restoring the native habitat. In southern California the removal of *Arundo donax* (a prevalent invasive non-native plant) has been used as mitigation for temporary and small permanent impacts to wetlands because it restores the native riparian habitat. Furthermore, Section 15061 states that "Subsection (b)(3) provides a short way for agencies to deal with discretionary activities which could arguably be subject to the CEQA process but which common sense provides should not be subject to the Act." Non-native species are considered the second largest threat after habitat destruction to the environment in the United States. The non-native invasive plants in the riparian systems of southern California have taken over large areas, displacing the native flora and not providing the equivalent structure and function. Once these non-native plants are removed, the riparian systems are able to recover due to the regeneration of the system that naturally occurs after flooding. Section 15305, Article 19 states that Class 4 categorical exemptions "consist of minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry or agricultural purposes." This exotic plant control project involves the control of several target exotic plants, none of which are trees. The exotic plants are generally scattered, therefore it does not involve the removal of large areas of vegetation. The removal of the non-native plants will result in improvement of the habitat for fish and wildlife resources.

## MEMORANDUM OF UNDERSTANDING ("MOU") AGREEMENT

Between:

Mission Resource Conservation District ("Mission RCD") and Temecula-Elsinore-Anza-Murrieta ("TEAM RCD")

This Agreement between the "Local Project Sponsor" (Mission RCD) and the "Partner" TEAM RCD sets forth the understanding between the Local Project Sponsor and the Partner (collectively "Parties") for work performed pursuant to an Agreement between the Wildlife Conservation Board ("WCB") Stream Flow Enhancement Program Prop 1 Grant and Mission RCD ("WCB Agreement").

### Recitals

1. As part of the work under the WCB Grant, Mission RCD has entered into an Agreement for "Invasive Non-native Plant Control of *Arundo donax*," Agreement No. 2017009 dated 2017-8-11.
2. This MOU Agreement is designed to reflect the agreement between Mission RCD ("Local Project Sponsor" under the WCB Agreement) and the "Partner" TEAM RCD, which holds regulatory permits and/or Right of Entry Agreements (ROEs) for work activities on the Santa Margarita Watershed in Riverside County. Regulatory permits held by Partner include a Streambed Alteration Agreement ("SAA," 1600-2012-0014-R6) issued by the California Dept. of Fish and Wildlife.
3. Project description: Invasive Non-native Plant *Arundo donax* (giant reed) Control in Support of the Prop 1 WCB Grant. *Arundo* control has the following benefits: water will be conserved by increasing available groundwater; flood risk and damage will be reduced; fire risk will be reduced; and water quality will be enhanced by reducing erosion through minimizing bank failures and normalizing geomorphic processes. Several federal and state listed endangered species will benefit from the habitat enhancement that this project generates as wetland function is restored.

The Recitals are incorporated herein and, the Parties agree as follows:

**A. Agreement**

This MOU Agreement is made and entered into on the latter of the dates written below until terminated by any of the Parties with thirty (30) days' written notice to the other Parties.

**B. Duties of the Parties**

1) Each of the Parties shall be responsible for and undertake the following Project activities:

a) Mission RCD shall:

- Complete any and all contracting necessary for the Project.
- Prepare and select contractors to be used for Project activities, including preparation of any contracting documents, including but not limited to Requests for Qualifications/Requests for Proposals.
- Prepare invoices to be sent to WCB.
- Prepare any and all reports required by WCB.
- Comply with all permit conditions contained in the Partner's Santa Margarita and San Luis Rey Watersheds Invasive Species Control Program as described and authorized in the project California Environmental Quality Act (CEQA) document(s), and the SAA issued by the California Dept. of Fish and Wildlife.
- Provide adequate documentation of project implementation (including photographic documentation, maps, and written description of work completed) to Partner for reporting purposes required of Partner in accordance with Partner's regulatory permits. A report will be prepared for TEAM RCD with maps, photos, and work description that will be reviewed by TEAM RCD. This report will be used to fulfil permit reporting requirements under TEAM RCD's SAA.
- In the event of a Permit violation, take all corrective actions required by the Partner or regulatory agency responsible for the permit.
- Save, indemnify and hold harmless TEAM MRCD against any liability, loss, cost, damage and expense caused by or arising from the exercise of the rights granted herein and/or any act(s) or omission(s) of Mission RCD, its employees, agents, contractors, and volunteers, successors and assigns; including, but not limited to any such loss, cost, damage, liability and expense arising from damage to or destruction of real and personal property or injury to or death of any person; provided, however, that Nature Collective's duty to indemnify and hold harmless shall not include any claims or liability arising from the established sole negligence or willful misconduct of the Mission RCD, its agents, officers, or employees.

b) The Partner shall:

- Send quarterly invoices representing work conducted by the Partner: typically related to coordination, any ROE work, and permit reporting and monitoring.
- Work with Mission RCD to assure efficient work and permit compliance for all Project activities.

**C. Description of Payment for Services**

1) Under the WCB Agreement, Mission RCD shall submit invoices for Project work to WCB. To comply with this submission requirement, the Partner shall submit any invoices for its own work to Mission RCD within two (2) weeks of a request for invoicing. All submitted invoices will include, at a minimum, the following information:

- Costs incurred by the Partner for work performed in implementing the Project (only Partner staff time, and SAWA time for review and assistance, may be billed).
- Appropriate reports for costs incurred, in a format approved by Mission RCD (such as any SAA fees).
- Partner costs will not exceed \$5,000 unless authorized by the Mission RCD.

2) The Parties agree that the following conditions or costs, even if expended in conjunction with the Project, are not reimbursable with WCB Agreement funds. These costs include, but are not limited to:

- Purchase of equipment.
- Travel and per diem costs. Travel includes the cost of transportation subsistence, and other associated costs incurred by Party personnel.

3) The Partner shall comply with all applicable terms and conditions of the WCB Agreement.

4) Following the review of each invoice submitted by Mission RCD to WCB, WCB is to disburse to Mission RCD the approved amount. All funds disbursed by WCB shall be used solely to pay eligible costs. Within thirty (30) days of receipt of funds from WCB, Mission RCD shall disburse funds due and owing to the Partner.

5) The Parties acknowledge that, pursuant to the WCB Agreement, WCB will withhold as retention ten percent (10%) of the defined "Eligible Costs." This amount will be withheld until completion of the Contract and submission of required reports. As a result, the Parties understand that there will be a delay in receiving all contract funding due and owing to the Parties until the WCB Agreement is closed with WCB and retention is released.

**D. Accounting and Deposit of Contract Disbursement**

1) The Partner agrees that it shall: 1) maintain audit and accounting procedures that are in accordance with generally accepted accounting principles and practices; and 2) keep complete and accurate records of all disbursements.

2) Records are subject to inspection by WCB at all reasonable times. The Partner's fiscal control and accounting procedures must be sufficient to permit tracing of grant funds to a level of expenditure adequate to establish that such funds have not been used in violation of state and local laws, this MOU, or the WCB/Mission RCD Agreement.

**E. Description of Communication**

Any notice, demand, request, consent, or approval that any party desires or is requested to give to the other party shall be in writing. Notices may be sent by mail, courier, electronic mail or any other means of delivery. Any party may, by written notice to the others, designate a different address that shall be substituted for the one below:

## Farm and Ranch Solid Waste Cleanup and Abatement Grant Program

### What is the Farm and Ranch Grant Program?

The Farm and Ranch Solid Waste Cleanup and Abatement Grant Program provides funding from the California Department of Resources Recycling and Recovery (CalRecycle) for the cleanup of illegal solid waste sites on farm or ranch property.

Grants are limited to \$50,000 per cleanup or abatement project, with a limit of \$200,000 per year for each eligible applicant.

### What is Farm or Ranch Property?

Farm or ranch property is property that is used for rangeland or agricultural activities such as, but not limited to, commercial livestock and crop production, horticulture, aquaculture, silviculture, floriculture, vermiculture, and viticulture. Farm or ranch property can be publicly or privately owned and need not have active sales or production, but must be appropriately zoned or otherwise authorized for agricultural activities.

### Who Is Eligible to Apply for the Grant?

Only cities, counties, resource conservation districts, and federally recognized Native American tribes may apply. Property owners who desire grant funding to clean up their

Illegal disposal site in Stanislaus County.

property must work with one of the entities listed above. See the "Need More Information?" section for contact information.

### What Sites Are Eligible for Grants?

Sites may be eligible for grant funding if the property meets all of the following criteria:

- Unauthorized solid waste disposal has occurred on a farm or ranch parcel(s).
- Property is in need of cleanup to abate a nuisance or public health and safety threat and/or a threat to the environment.
- The owner is not responsible for the illegally disposed waste.
- Property is zoned or otherwise authorized for agricultural activities.

### What Cleanup Activities May This Grant Money be Used For?

Eligible expenses include, but are not limited to:

- Waste removal and disposal
- Recycling
- Personnel to administer the grant
- Drainage control and grading improvement
- Slope and foundation stabilization
- Equipment rental
- Excavation
- Revegetation
- Site security
- Public education
- Removal of chlorofluorocarbons (CFC)
- Administrative costs up to 7 percent of the cleanup costs expended

### Can a Property Owner Get Reimbursed for a Previous Cleanup?

Yes. Reimbursement of costs previously incurred by a farm or ranch property owner for cleanup or abatement of an illegal solid waste site is allowed. However, verification and

documentation must be provided to clearly show that:

- Eligibility criteria have been met (see "What sites are eligible for grants?").
- Costs incurred were used specifically for the cleanup or abatement work.

Whenever possible, property owners should coordinate with one of the eligible grant recipients prior to cleanup.

### **How do I get a Grant Application?**

The Application is now online in CalRecycle's web-based Grants Management System (GMS). There are three grant cycles each year.

### **Other CalRecycle Grants for Illegal Dumping**

#### ***Local Government Waste Tire Cleanup Grants and Waste Tire Amnesty Grants***

These are grants available to local government entities (including local enforcement agencies [LEA]), county and city departments, special districts and California Native American organizations. Grants are awarded on a competitive basis for the removal, transportation, recycling, and disposal of waste tires from illegal tire piles and areas where illegal dumping has occurred along public rights-of-way. The Tire Amnesty Grant Program funds amnesty events for the public to bring in their tires to convenient locations at no charge.

#### ***Solid Waste Disposal Site Cleanup Grants***

These are competitive grants available to public entities. These grants can finance remediation projects at solid waste disposal sites where there is a threat to public health and safety or the environment, and where the responsible party is unable or unwilling to perform the timely remediation or is unidentified.

## RESOLUTION

Adopted – 2/10/22

### **TEMECULA ELSINORE ANZA RESOURCE CONSERVATION DISTRICT AUTHORIZING SUBMITTAL OF APPLICATION FOR ALL CALRECYCLE GRANTS FOR WHICH TEMECULA ELSINORE ANZA MURRIETA RCD IS ELIGIBLE**

WHEREAS, Public Resources Code sections 48000 et seq. authorize the Department of Resources Recycling and Recovery (CalRecycle) to administer various grant programs (grants) in furtherance of the State of California's (state) efforts to reduce, recycle and reuse solid waste generated in the state thereby preserving landfill capacity and protecting public health and safety and the environment; and

WHEREAS, in furtherance of this authority CalRecycle is required to establish procedures governing the application, awarding, and management of the grants;

WHEREAS, CalRecycle grant application procedures require, among other things, an applicant's governing body to declare by resolution certain authorizations related to the administration of CalRecycle grants.

NOW, THEREFORE, BE IT RESOLVED that **TEMECULA ELSINORE ANZA MURRIETA RESOURCE CONSERVATION DISTRICT** authorizes the submittal of application (s) to CalRecycle for all grants for which **TEMECULA ELSINORE ANZA MURRIETA RESOURCE CONSERVATION DISTRICT** is eligible.

BE IT FURTHER RESOLVED that the PRESIDENT, or the designee is hereby authorized and empowered to execute in the name of the TEMECULA ELSINORE ANZA MURRIETA RCD all grant documents, including but not limited to, applications, agreements, amendments and requests for payment, necessary to secure grant funds and implement the approved grant project; and

BE IT FURTHER RESOLVED that these authorizations are effective for five (5) years from the date of adoption of this resolution.
