

# AGENDA

## **AGENDA**

**Temecula-Elsinore-Anza-Murrieta**

**Resource Conservation District**

**Regular Board Meeting**

**Thursday, December 13, 2018 – 4:00 p.m.**

**Truax Building**

**41923 Second Street, Fourth Floor**

**Temecula, CA 92590**

---

### **ADDING URGENCY ITEMS TO THE AGENDA:**

*Items may be added to the Agenda in accordance with section 54954.2(b)(2) of the Government Code (Brown Act), upon a determination by a two-thirds vote of the members of the legislative body present at the meeting, or, if less than two-thirds of the members are present, a unanimous vote of those members present, that there is a need to take immediate action and that the need for action came to the attention of the Temecula-Elsinore-Anza-Murrieta Resource Conservation District after the agenda was posted.*

### **I. PRELIMINARY FUNCTIONS**

**Call to Order – Pledge of Allegiance**

**Roll Call/Establish a Quorum**

**Approval of Agenda**

#### **Public Comment**

*Any person may address the Board at this time upon any subject not identified on this Agenda but within the jurisdiction of the Temecula-Elsinore-Anza-Murrieta Resource Conservation District. Please note that for items not listed on the agenda, the Brown Act imposes limitations on what the Board may do at this time. The Board may not take action on the item at this meeting. As to matters on the Agenda, persons will be given an opportunity to address the Board when the matter is considered. If you wish to speak during public comment, please fill out a "Speaker Request Form" and give it to the Board Secretary. When the Board President calls your name, please immediately begin by giving your name and address for the record. Each speaker will be given three (3) minutes to address the Board.*

## **II. CONSENT CALENDAR**

*Consent Calendar items are expected to be routine and non-controversial, to be acted upon by the Board at one time without discussion. All items appearing on the Consent Calendar may be disposed of by a single motion. Items shall be removed from the Consent Calendar if any member of the Board of Directors, staff member, or interested person requests removal prior to a vote on a motion to approve the items. Such items shall be considered separately for action by the Board.*

1. Consider approval of Minutes of the Board of Directors Scheduled Meeting of October 2018

#### **XI. ADJOURNMENT**

#### **ADA COMPLIANCE STATEMENT:**

*Upon request, this agenda will be made available in appropriate alternative formats to persons with disabilities, as required by §202 of the Americans with Disabilities Act of 1990. Any person with a disability who requires a modification or accommodation on order to participate in a meeting should direct such request to the District at least 48 hours before the meeting, if possible.*

**Next Meeting: February 14, 2018 at 4:00 PM Regular Meeting**

# MINUTES

**CONSENT CALENDAR**

**MINUTES SIGNED FROM  
LAST MEETING**

**MINUTES**

**TEAM RCD**

**Temecula-Elsinore-Anza-Murrieta Resource Conservation District**

**Regular Board Meeting**

**Thursday, October 11, 2018 at 4:00 PM**

**Truax Building**

**41923 Second Street, Fourth Floor**

**Temecula, CA 92590**

**I. PRELIMINARY FUNCTIONS**

**Call to Order, 4:00 p.m., meeting recorded by Rose Corona**

**Flag Salute**

**Roll Call/Establish a Quorum**

**Directors Present:** Rose Corona (President); Dave Kuhlman, Michael Newcomb, Judy Gugliemana, Stacy Kuhns (Treasurer)

**Directors Absent:** None

**Associate Directors:** Rick Neugebauer - Present

**Randy Feeney - Absent**

**Office Manager:** Absent

**District Counsel Present:** Ward Simmons, Best, Best & Krieger

**Natural Resources Conservation District (NRCS) Absent:** Robert Hewitt

**Guest Speakers:** Lance Anderson, Ag Program Director, Courtney Provo, District Manager, Mission RCD

**Public Guests:** None

**Approval of Agenda**

President Corona called for a motion to approve the agenda.

Director Kuhns moved and Director Kuhlman seconded. **Motion passed unanimously 3-0.**

**PUBLIC COMMENT**

None

**II. CONSENT CALENDAR, III. CORRESPONDENCE & IV. GENERAL INFORMATION**

President Corona asked for a motion to approve the Consent Calendar, all Correspondence and General Information.

Director Kuhns moved and Director Kuhlman seconded. Call for vote. **Motion passed unanimously 3-0**

### **III. ACTION ITEMS/ DISCUSSION CALENDAR**

#### **Item 1: Discussion and update renewal of Internet and email service to ISC International.**

President Corona stated ISC International hosts the website and e-mails for TEAM RCD.

President Corona asked for a motion to approve the renewal of Internet and e-mail services with ISC International. Director Newcomb made the motion to approve services with ISC International. Seconded by Director Gugliemana. No further discussion. **Motion passed unanimously 3-0**

#### **Item 2: Discussion and potential approval to cancel December and January regular meetings.**

President Corona stated December and January is a difficult time to get a quorum due to scheduling conflicts. If a quorum is needed during this time to handle TEAM RCD business, a special meeting can be called the third week of January.

President Corona asked for a motion to approve canceling the regular board meetings in December and January. Director Kuhns made the motion and Director Kuhlman seconded it. There was no further discussion. **Motion passed unanimously 3-0**

### **IV. OLD BUSINESS**

#### **Item 1: Discussion and potential approval to give President authority to approve SAWA contract for the Fairway Estates project when Fairway Estates decides to go forward with proposal.**

President Corona stated Fairway Estates asked for a proposal and said proposal was provided by SAWA. Fairway Estates is having monetary issues at the moment, however this proposal will be discussed at their next board meeting in the next couple of months when TEAM RCD is dark.

President Corona asked for a motion to approve the President, the authority to approve SAWA contract for the Fairway Estates project. Director Kuhns made the motion and Director Gugliemana seconded it. There was no further discussion. **Motion passed unanimously 3-0**

#### **Item 2: Discussion and reminder for Ethics Training and Harassment Training - Ward Simmons**

Attorney Simmons encouraged everyone that needs to do so, to complete the required Ethics and Sexual Harassment training. President Corona stated these trainings are due within a month to the State of California for the accreditation of the TEAM RCD Board. No motion necessary.

Still needed:

- a) Dave Kuhlman- Ethics Training and Harassment Training
- b) Michael Newcomb- Ethics Training
- c) Judy Gugliemana- Ethics Training and Harassment Training

#### **Item 3: Update on funding Agreement between FVS Partners and TEAM RCD for Conservation Easement at Benton Channel.**

President Corona stated FVS Partners and Mission Pacific sold this piece of property to Pulte Homes. TEAM RCD is in possession of \$90,000 for the conservation easement and said funds are to be put into a CD account. No further discussion. No motion necessary.

#### **Item 4: Discussion and potential approval of investment CD parameters with a creation of new bank accounts for investments of maturing CD's for monies from Pulte Homes and other existing CD accounts to include account interest for existing and future CD's for Benton Channel.**

President Corona stated the interest rate is between 2.3% and 2.7% on a two year CD. Half of the money is in an existing money market and CD account, the other half is Greer Ranch and Benton

Channel. President Corona proposed putting Greer Ranch funds in one CD and Pulte in another two year CD so as to keep the CD's on the same timeline but separate accounts.

**Item 5: Discussion and potential approval of account interest for existing and future CD's**

President Corona stated this item will be decided at the next regular board meeting.

**Item 6: Discussion and potential approval to nominate Board member to work with Benton Channel project designed in coordination with Fish and Wildlife for Pulte Homes Endowment.**

President Corona stated this item will be decided at the next regular board meeting.

**Item 7: Discussion and update on Bio monitoring at Greer Ranch and Benton Road.**

Associate Director Neugebauer states the reports are being prepared and should be ready within the next thirty days.

**Item 8: Discussion and update on MOU with SAWA.**

President Corona stated that Mr. Simmons recommended a more specific agreement with Flood Control due to the number of projects.

Mr. Simmons commented a regular contract would provide more protection for the interests of TEAM RCD rather than an MOU. This contract is in the process of being drafted and prepared for review.

**Item 9: Discussion and update on MOU with Flood Control.**

President Corona states we are hopeful to have this signed in the next few days with SAWA, as SAWA wants to begin working October 23<sup>rd</sup>. Changes TEAM RCD has proposed in the agreement to include canceling outstanding work rather than terminating the agreement in the event there is a catastrophic event. Issuing of task orders for the work within the agreement could be easily terminated if needed rather than designing a new agreement.

**V-NEW BUSINESS**

**Item 1: Discussion and potential approval to have District Counsel create resolutions regarding Board Directors attendance and training requirements to include: procedures and policies of Board member resignation/removal for non-completion of required training, Form 700's and/or after non-attendance for three consecutive months of Board meetings.**

President Corona stated she would review the policies and procedures with Mr. Simmons in regards to the removal of a Director when required documents and training are not completed. No motion necessary.

**VI. ORAL/WRITTEN REPORTS**

1. MRCD – Lance Anderson reports Healthy Soils and State Water Efficiency an Enhancement Program (SWEEP) are on farm efficiency programs the state funds through cap and trade. These are opportunities for growers to get monies for irrigation related improvements through SWEEP and soil practices to improve soil health through the Healthy Soils Program. Technical assistance is needed for growers to be competitive in these grant processes. The CDFA put out a call for proposal for technical assistance grants and one has been secured. MRCD want to propose doing workshops and providing one-on-one assistance available to property owners and TEAM RCD. The proposals are to be released at the end of November, due January.

2. **TEAM RCD – DIRECTOR REPORTS**

Rose Cornoa - President Corona reports the supervisors have signed her up for another four year term.

Dave Kuhlman - no report

Micheal Newcomb - no report

Stacy Kuhns - no report

Judy Gugliemana - no report

**VII. ADJOURNMENT**

With no further business, President Corona asked for a motion to adjourn the meeting. Director Gugliemana made the motion. Director Newcomb seconded. **Motion passed unanimously 3-0.** Meeting adjourned at 4:52 pm

Newport Beach, CA 92660**

**Re: Funding Agreement for Conservation Easement Management at the Benton Channel for the French Valley South Tentative Tract 30837 Project ("Project")**

**Mr. Osmundson and Mr. Keller:**

**As you recall, the Board of the Temecula-Elsinore-Anza-Murrieta Resource Conservation District (TEAM RCD) considered and approved the proposed Funding Agreement in the form of a letter dated March 1, 2018, between FVS Partners, LLC (FVS, a Delaware limited liability company, and TEAM RCD (Funding Agreement) regarding FVS's contribution of \$90,000 (Endowment) to TEAM RCD for its ongoing management within TEAM RCD's existing Conservation Easement in the Benton Channel regarding the French Valley South Tentative Tract 30837 Project.**

**P.O. Box 2078 ♦ Temecula, CA 92593-2078  
Ph: 951-387-8992 ♦ [www.TEAMRCD.org](http://www.TEAMRCD.org)**

The original endowment was to be submitted prior to March 1, 2018 and work to begin after April 1, 2018, however, after negotiations between you and your clients fell through, we were informed that you would not be able to make the deadline and should have something arranged by August or September in order for us to move forward with the Endowment agreement.

TEAM RCD agreed to give you until September 30, 2018 to finalize our agreement and asked our legal counsel to put a change in the agreement to reflect the extension of time that your requested. As was agreed upon at the time and in consultation with California Department of Fish and Wildlife who agreed to allow us to delay the work originally slated to begin in April and our legal counsel the following changes were made to the agreement and approved by the TEAM RCD Board:

Paragraph 4 is deleted in its entirety and replaced with the following language:

"4. FVS, its successors and/or assigns, shall provide the Endowment in the amount of \$90,000 to TEAM RCD by no later than September 30, 2018. TEAM RCD's performance of its obligations under this Funding Agreement is conditioned on TEAM RCD's receipt of the Endowment by no later than September 30, 2018.

TEAM RCD's performance as described in the Scope of Work shall commence on November 1, 2018. TEAM RCD's Scope of Work is defined in and attached to TEAM RCD's Letter dated October 6, 2017, which is incorporated herein by this reference."

We are now less than 30 days away from the deadline and the Board has asked that I send out this reminder regarding the deadline for this endowment to be received. As in my April 4, 2018 letter to you, please be advised that if the Endowment in the amount of \$90,000 is not received by TEAM RCD by the September 30, 2018 deadline, the proposed Funding Agreement will need to be renegotiated at increase costs and scope of work. Should you have any questions regarding this matter, please contact the undersigned.

Best Regards,

Rose Corona

# CORRESPONDENCE

Kirsten Roybal

Union Bank

26407 Ynez Road

Temecula, CA 92593

Dear Ms. Roybal or to Whom It May Concern:

This is to notify Union Bank that we will be removing Carol Lee Brady, who was our former Secretary-Treasurer, from all accounts for the Temecula-Elsinore-Anza-Murrieta Resource Conservation District and replacing Ms. Brady with Stacy Kuhns, the newly elected Secretary-Treasurer as of the regularly scheduled meeting on February 8, 2018. She should have full access to all accounts and the ability to sign any documents on behalf of the TEAM RCD Board. The minutes reflecting Ms. Kuhn's appointment to Secretary-Treasurer is attached.

Just as a review, the three officers allowed to sign on the account will be as follows going forward:

Rose Corona-President

Dave Kuhlman-Vice President

Stacy Kuhns-Secretary-Treasurer

Thank you for your time and considerations.

Best Regards,

Rose Corona

Dear Mr. McKibbin,

Enclosed are the billings for the initial project planning Assessment and Regulatory Compliance for \$13,429.99 and the remaining billings for 50% deposit on the 5 pilot projects we are collaborating with the Riverside Country Flood Control District.

Please let me know if you have any questions and we look forward to many years of working closely with Riverside Flood Control now and in the future.

Best Regards,

Rose Corona

October 25, 2018

Elsinore Murrieta Anza RCD  
PO Box 2078  
Temecula, CA 92593

Enclosed is a list of properties which became subject to the Treasurer-Tax Collector's Power of Sale on July 1, 2018. These properties are now subject to public auction and it is the intent of this office to offer said properties at our earliest convenience.

You may have the right to purchase certain properties within your district, under the Provisions of Division 1, Part 6, Chapter 8, beginning with Section 3771, of the State of California Revenue and Taxation Code. Immediately upon receipt of this notice, please check each parcel carefully to determine if you intend to exercise your right to purchase by Agreement.

Please check to see if there are properties currently in use or maintained by your agency which have been deeded to you. These properties may entail unaccepted dedications of properties or easements. If any such parcels exist within your city or agency, we must know which parcels they are as soon as possible. By examining the properties promptly you will have adequate time to properly research each parcel and determine your requirements well in advance of the public auction sale. To view and obtain files for our inventory of parcels subject to the Power of Sale and to access our new interactive parcel map please visit our website at [www.countytreasurer.org](http://www.countytreasurer.org). From the homepage please navigate to the Tax Collector tab -> Tax Sale Information -> Parcel Inventory.

If you intend to initiate action to acquire any parcel(s), notify the undersigned by completing the enclosed "Application to Purchase Tax-Defaulted Property." Please check the box applicable to your purchase and be sure to include all documentation according to the selections you have made.

Please do not telephone us to request purchase prices, as we will be unable to determine the purchase price without a review of the property.

Thank you in advance for your cooperation.

Sincerely,

*Marissa Mendoza*

# Application to Purchase Tax-Defaulted Property from County

This application must be completed by eligible purchasing entity to commence purchase of tax-defaulted property by Agreement sale from the county under applicable provisions of the California Revenue and Taxation Code. Complete the following sections and supply supporting documentation accordingly. Completion of this application does not guarantee purchase approval.

## A. Purchaser Information

1. Name of Organization: \_\_\_\_\_
2. Mailing Address: \_\_\_\_\_
3. Contact Person: \_\_\_\_\_ Phone: \_\_\_\_\_
4. Email: \_\_\_\_\_
5. Corporate Structure – check the appropriate box below and provide the corresponding information:
  - ☐ Nonprofit Organization– provide Articles of Incorporation (if more than ten years old an update is required)
  - ☐ Public Agency– provide *Mission Statement on Letterhead* and if Redevelopment Agency or Special District, also provide Jurisdiction Map
5. Agency is to acquire title “As” and the taxing status: \_\_\_\_\_

(Taxing status example: City of Watsonville, a municipal corporation, as a Taxing Agency or Sacramento County Flood Control District, as a Revenue District)

## B. Purchasing Information

Check the appropriate box as it relates to the purchasing Entity’s Corporate Structure and the intended use of the parcel:

1. Is the parcel currently approved for a Chapter 7 Tax Sale? ☐ Yes ☐ No
2. The purchase is by (choose only 1 of the 3): (Attach a separate letter objecting to a Chapter 7 tax sale of the parcel)
  - ☐ Purchase by Taxing Agency, Revenue District or Special District (circle only one)
  - ☐ Purchase by State or County (circle only one)
  - ☐ Purchase by Nonprofit
3. The purpose of the purchase is: (check only one box) If additional space is needed attach separate sheet as an exhibit.
  - ☐ To preserve a lien
  - ☐ For low income housing (sell or rent) circle one
  - ☐ For public purpose to \_\_\_\_\_
  - ☐ To preserve open space for \_\_\_\_\_

Describe public purpose

## C. Property Information

Provide the following information. If there is more than one parcel or you need more space for any of the criteria, consolidate the information into a separate “Exhibit” document and attach it to this application:

1. County where the Parcel is located: \_\_\_\_\_
2. Assessor’s Parcel Number (if only one, list here more than one list on separate sheet): \_\_\_\_\_
3. State the purpose and intended use for the Parcel: \_\_\_\_\_

## D. Acknowledgement

Provide the signature of the purchasing entity’s authorized officer

# **GENERAL INFORMATION / CORRESPONDENCE**

training and advice necessary to become future conservation leaders is crucial to the sustainability of organizations like NCF and NACD," **said NCF Chairman Steve Robinson.**

The campaign will support a program for next generation leaders, which will officially launch in February at the 2019 Annual Meeting. The program will be guided by an advisory committee; provide trainings, meetings and webinars for leadership participants; and facilitate face-to-face opportunities for leadership participants at NACD meetings.

Please consider [donating to this important endeavor](#). **Contributions will be matched dollar-for-dollar by a generous benefactor** to help give participants the tools they need to be the best leaders for the conservation community.

---

## NACD GOVERNMENT AFFAIRS UPDATE

On Sept. 27, the U.S. House Committee on Natural Resources advanced four bills to help modernize the Endangered Species Act (ESA). In July 2018, **NACD President Brent Van Dyke** [sent a letter](#) to Rep. Paul Gosar (R-AZ) highlighting the significant need to update the ESA and emphasize the significance of local decision-making and voluntary conservation. After successfully passing out of committee, these four bills are pending consideration by the whole House.

As of Monday, Oct. 1, the 2014 Farm Bill officially has expired with no new reauthorization. NACD's Government Affairs team [released a blog post](#) last Friday explaining what that means both for current farm bill programs operated by USDA, as well as what is expected moving forward as Congress works to pass a new farm bill.

Congress also passed, and President Trump signed, an extension of funding for USDA and the Department of the Interior until Dec.

Stewart has been working with NACD since July on a temporary basis via Careers In Nonprofits. Stewart has previous administrative, accounting and budgeting experience with organizations including the American Council on the Teaching of Foreign Languages, the American Physical Society, Population Action International and American University. She is a native of the DMV area (District of Columbia, Maryland, Virginia) and is looking forward to contributing to the mission of NACD.

## On the WEB

**"Life in the Soil: Dig  
Deeper" Materials Now  
Available**

7, 2018. While Congress was able to pass a small handful of year-long funding bills for the entirety of fiscal year 2019, they did not include these two agencies which conservation districts interact with the most. With the midterm elections coming up in approximately a month, Congress will have limited time between now and Dec. 7 to pass a further extension. However, discussions between the House and Senate have indicated that concerns about a future federal government shutdown are not currently warranted.

## STATE ASSOCIATION EXECUTIVE DIRECTORS CONVENE IN FLORIDA

On Sept. 25-28, leaders from across the nation met in Daytona Beach, Fla., for the 2018 NACD State Association Executive Directors Annual Conference. During the conference, the executive directors participated in roundtable discussions exploring different programs, projects, initiatives, challenges and events in each of the states. Attendees established face-to-face connections, providing a network of peers that can be utilized throughout the year as each executive director faces challenges or questions.

**Xavier Montoya**, the USDA NRCS Acting Southeast Regional Conservationist,

NACD's 2019 Stewardship and Education materials celebrating the theme "Life in the Soil: Dig Deeper" are now available on NACD's Marketplace for free download.

In the coming weeks, districts will be able to place orders for print-on-demand 2019 materials. To learn more about NACD's Stewardship program, visit our website or contact [stewardship@nacdnet.org](mailto:stewardship@nacdnet.org).

## NACD Launches District Job Board

On Oct. 1, NACD launched a new District Job Board feature on the association's website, where districts and state or territory associations can post their job openings and employment websites. NACD members can log in to post a job, maximizing the reach of their vacancy to attract the most

provided program updates to attendees and discussed aspects of NRCS' partnership with conservation districts. **Clegg Hooks**, Deputy Director of the Florida Office of Agricultural Water Policy, highlighted conservation efforts throughout the state, explaining the challenges they face and showcasing some of the valuable resources they utilize such as [\*Best Management Practices \(BMP\) Manuals\*](#).

**NACD North Central Region Representative Beth Mason** led the executive directors in jumpstarting a training program, exploring the different "hats" they wear within the state association. This initiative explores the roles outlined their job descriptions, assesses their training needs, and gathers and develops resources to directly address each area. The conference wrapped up with a half-day of local agricultural conservation tours at the [\*Fern Trust, Inc.\*](#) and the [\*Evans Farm\*](#) – one of only two caviar farms in the U.S.

---

## TRIBAL RPG MEETS IN WASHINGTON STATE

On Sept. 17, the [\*NACD Tribal Outreach and Partnership \(TOP\) Resource Policy Group\*](#) (RPG) met during the joint Pacific and Southwest Regions meeting in Kennewick, Wash. **NACD President-elect Tim Palmer** and board members from both regions addressed meeting participants. Tribal members from the Cowlitz, Wanapum, Makah and Yakima Tribes gave presentations about their ancestral homelands, tribal treaty rights, traditional food gathering, invasive species issues, and fisheries habitat restoration projects in the Snake, Salmon and Columbia watersheds.

qualified candidates from across the nation.

Job seekers can sort the job listings by category, key word or location. Listings will remain available for 30 days, after which time they can be extended. This new resource gathers all district job openings from across the nation in one convenient location, free of charge.

---

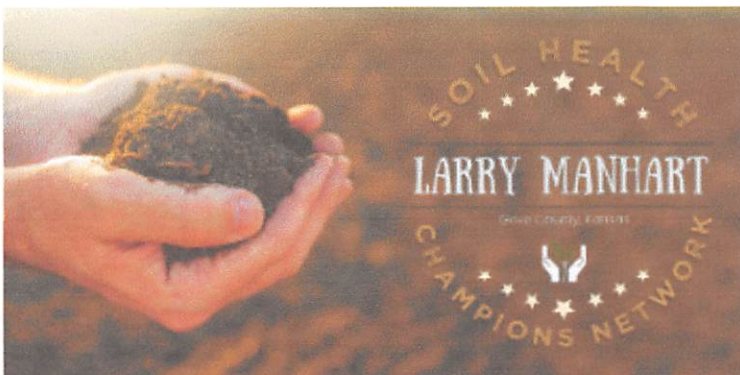

## NACD Attends NASF Annual Meeting in Montana

NACD Forestry Resource Policy Group (RPG) **Chairman Steve Hedstrom** and **NACD Forestry Specialist Mike Beacom** attended the 2018 National Association of State Foresters (NASF) Annual Meeting in Whitefish, Mont., last week. Every state forestry agency in the country was represented at the meeting, as well as numerous partners and forest industry representatives. **Governor Steve Bullock** (D-Mont.) and **USDA Undersecretary for Natural Resources and Environment Jim Hubbard** were among the featured guests and speakers. NACD works closely with NASF on

**Makah Tribal Council Vice Chairman Greig Arnold** described the Tribe's work with the Natural Resources Conservation Service (NRCS) regarding whaling and treaty rights in relation to delivery of NRCS programs. The Makah Tribe is working with NRCS to develop a matrix for program participation requirements to assist tribal members with accessing NRCS programs and technical assistance. National Conservation District Employees Association (NCDEA) Pacific Region Representative **Tom Salzer** described the NCDEA board's recently approved bylaws change to clarify representation of tribal conservation district employees. **NACD President Brent Van Dyke** approved the nomination of Jerry Smith of Virginia to replace Patty Lambrecht as the Southeast Region Representative to the TOP RPG. The RPG has two vacancies in the South Central and Northeast Regions – please contact your region chair if you know any good candidates.

a number of national efforts, including the Joint Forestry Team.

### **Vote For the Next Cover of *The Resource*!**

NACD is preparing for the release of the fall edition of *The Resource*, and we need your help! **Click here to vote** on the next cover photo for *The Resource* and **click here to browse previous editions**.

In northwest Kansas, **Larry Manhart**, his wife Janice, son Doug and daughter-in-law Stephanie farm approximately 3,000 acres of wheat, corn and fallow land/cover crop rotation and manage 1,000 acres of grass for grazing.

The Manharts are committed to eliminating tillage and minimizing soil disturbance, starting with no-till practices about 20 years ago. Within the last 10 years, Manhart has experimented with cover crop mixes and new ideas and practices as the conditions in his fields allow.

Monitoring organic matter through soil testing has helped Manhart see the positive impacts of his efforts. He has realized this is a long-term process, taking small steps in the right direction every year. Manhart has seen less variability in yield, better weed suppression and improved water infiltration and carrying capacity. He says his crops also seem to "hang on longer during extended drought periods."

Additionally, Manhart has incorporated grazing cattle into his operation, buying stocker calves in the winter to graze the cover crops. His son Doug says reducing compaction is just a matter of taking the time to frequently move the herd.

To read more about Larry Manhart, his operation, his experiences and challenges in his soil health journey, be sure to visit his [Soil Health Champion Profile](#). If you or someone you know would like to be a part of the NACD Soil Health Champions Network, contact **North Central Region Representative Beth Mason**, for more information at [beth-mason@nacdnet.org](mailto:beth-mason@nacdnet.org) or 317-946-4463.

Do you have story suggestions or district success stories to include in the fall edition? [Let us know.](#)

STUDENT VIDEO SUBMISSIONS HAVE ARRIVED

On September 30, the submission period for the Districts Make the Difference Student Video Contest officially closed. High school and college students submitted videos highlighting how special districts truly make the difference in communities throughout California.

Over the next few weeks, CSDA staff will review and score each video based on four criteria: accuracy and effectiveness, creativity and originality, production quality, and entertainment value. The five videos with the highest overall scores will be featured on the Districts Make the Difference website.

NEW MEMBERS WELCOMED AT ANNUAL CONFERENCE

The CSDA Board of Directors welcomed 12 new members into the association. Our newest members include nine independent special districts: Briceland Fire Protection District, Calaveras County Resource Conservation District, Corning Cemetery District, Forestville Water District, Isla Vista Community Services District, Lathrop-Manteca Fire Protection District, Los Olivos Community Services District, Orangevale Recreation and Park District, and Redwood Coast Fire Protection District. Also joining are three new Business Affiliates, ready to serve our special district members: ABM BUILDING SOLUTIONS [8], BID FAST AND LAST AUCTIONS [9], and COBANK [10].

Tell Friend

National Association of  
Conservation Districts

Dear Conservation District Leaders,

Below, you will find a link to [NACD's annual survey of our conservation district members](#).

This survey encompasses conservation district structure, community relationships, program participation, communications and more. Your feedback to this survey provides NACD with an inventory of your needs and reduces the need for other surveys throughout the year. Additionally, completing this survey helps NACD enhance advocacy efforts on your behalf and provide more effective services and resources.

It is important your answers reflect a **consensus** of your full board of directors. Please use a conference call, board meeting or other collaborative approach to ensure board consensus. We can only use one completed survey per conservation district.

Every conservation district that completes the survey will be entered into a drawing for a FREE registration to attend NACD's 2019 Annual Meeting in San Antonio, Texas.

To access the survey, go to: <https://www.surveymonkey.com/r/ZB66D95>. Thank you in advance for your willingness to participate in this survey, and we look forward to hearing your voices.

Sincerely,

A handwritten signature in black ink that reads "Jeremy Peters".

Jeremy Peters  
Chief Executive Officer  
National Association of Conservation Districts

### **NACD Blog: 2014 Farm Bill Expiration: What's Next?**

By Coleman Garrison

09/28/18

The Sept. 30, 2018, expiration date came and went without a new farm bill or extension of the previous bill. As conservation districts interact with landowners in their communities and continue to work with USDA agencies, NACD wanted to provide an update on what to expect.

### **NACD Blog: NACD Grant Helps Develop Partnerships, Positive Conservation Efforts**

By Hunter Slifka

10/04/18

After receiving a technical assistance grant from NACD earlier this year, the Howard SWCD in Cresco, Iowa, is fortifying its partnerships and increasing conservation on the ground. In addition to expanding over 6,000 feet of streambank restoration projects this year, the district has increased its capacity for grassed waterway implementation.

**Star Tribune:** Several ag programs expire as farm bill talks stall

By Jim Spencer

10/02/18

☞ The failure by a U.S. Senate and House conference committee to agree on a final version of a five-year farm bill leaves dozens of programs in limbo.

**Washington Examiner:** Senate committee advances bill saving conservation fund for national parks

By Josh Siegel

10/02/18

The bipartisan bill would permanently authorize the fund and make the \$900 million in funding for LWCF mandatory every year, so that it is not subject to the regular appropriations process.

**AgWeb:** No Farm Bill, No New CRP Enrollments

By Anna-Lisa Laca

10/02/18

☞ “Until a new farm bill is passed or the current law is extended, the Farm Service Agency (FSA) will not approve any new CRP contracts or process offers for enrollment for all CRP signup types, and they will not authorize any CRP contract revisions or corrections,” he says. “Payments under the CRP program will be issued early this month, but that will be about the extent of what can happen.”

**Miami Herald:** Florida confirms toxic red tide spreading along Atlantic coast

By Jenny Staletovich

10/03/18

Florida Fish and Wildlife Conservation Commission officials confirmed that low to moderate amounts of the algae that cause red tide have now turned up off three counties along the state’s more densely populated east coast. Blooms were confirmed in Palm Beach, Martin and St. Lucie counties, marking the first appearance of red tide along Atlantic shores in more than a decade.

**Agri-Pulse:** Arm in arm, farm bill negotiators ‘in this together’

By Philip Brasher

10/04/18

☞ The four lead farm bill negotiators, meeting for the first time since some pickering erupted over the expiration of the 2014 law, declared that they are working together to reach an agreement by the end of the year.

**Wallaces Farmer: Planting cover crops for forage? Answer these 5 questions first**

By Wyatt Miller

09/25/18

Forage and hay supply is low, and the problem is unlikely to be resolved this year even with favorable weather. While there are several options available, grazing or harvesting cover crops could be an alternative feed option for some producers.

**The Hill: Republicans accelerate efforts to overhaul Endangered Species Act**

By Miranda Green

09/30/18

The House Natural Resources Committee advanced five ESA-related bills that aim to strip all protections for Gray Wolves in the contiguous United States; give priority to the science submitted by state and local governments over the federal government's when determining whether a species needs protection; and let the administration more easily deprioritize certain petitions for protection.

**Yale Environment 360: How Wildfires Are Polluting Rivers and Threatening Water Supplies**

By Ed Struzik

10/02/18

Just as wildfires can have a regenerative effect on woodlands, so, too, can fires provide some benefits to streams and rivers in burned areas. But intense and repeated fires can damage the ecology of waterways by exposing them to the sun's heat, exacerbating flooding and erosion along denuded hillsides, and releasing toxins such as mercury that are often liberated from soil and tree trunks.

**Poultryproducer.Com: Ag Losses From Hurricane Florence Top \$1.1 Billion**

10/02/18

Initial estimates for crop damage and livestock losses to North Carolina's agriculture industry are expected to be more than \$1.1 billion, based on assessments following Hurricane Florence.

CALIFORNIA ASSOCIATION OF  
**RESOURCE**  
CONSERVATION DISTRICTS

Dear Colleagues,

In service to all RCDs throughout the state, the CARCD team is always on the lookout for events, news, funding opportunities, and any other resources that could be relevant to the important work that you do in your communities. Please see below for this week's digest of announcements.

If you have questions about any of the content listed below, please don't hesitate to contact us.

Thank you and Happy Friday!

---

## In This Issue:

1. [CARCD Updates](#)
  2. [Funding Opportunities](#)
  3. [Advocacy & Legislation](#)
  4. [RCD News](#)
  5. [Conservation Announcements](#)
- 

## CARCD Updates

## Call for Silent Auction Contributions

The CARCD Conference is coming up in just six weeks, and now is a great time to start collecting items for the annual silent auction. The silent auction is an important part of being able to keep the conference affordable and we want to say a big thank you for all the generous contributors who make it possible every year. Simply bring your item to one of the registration table at the conference and bidding will close 11 am on Friday.

## Nominate Your Favorites for the Conference

[Nomination forms are now live](#) so don't forget to show some appreciation for who you think deserves Director of the Year, District of the Year, Employee of the Year, and Volunteer of the Year. There will be an award ceremony at the annual conference in November. Forms will close on October 16!

## Breakout Sessions and Agenda for CARCD Conference Out Now

We are excited to announce the release of our preliminary [breakout sessions](#) and [conference agenda](#)! This year's conference will feature opening session speakers including Claire Jahns from the Natural Resource Agency, Louise Bedsworth from the CA Strategic Growth Council, Sam Schuchat with the Coastal Conservancy, and John de Graaf, author and filmmaker. There will be over 45 presentations in three breakout session tracks including topics on: Transformative Working Lands, Forests and Fires, Urban Community Adaptation, Water Conservation, and Conservation Tools. You can find additional [information about our conference here](#).

## Announcing CARCD Board's Resolutions

CARCD appreciates all the hard work the RCD community has engaged in as it strives towards the goal of being visible, relevant and excellent!! We have all rolled up our sleeves and the results of that effort are being realized and becoming more apparent every day. As a network we are getting stronger and more able to reach our goals. In order to be able to meet the growing needs you have, CARCD has also been working hard to strengthen its ability to support you. As a small part of this effort, the CARCD Board is proposing that the CARCD membership approve five resolutions at the 2018 Annual Business Meeting. All dues-paying RCD members can vote on these resolutions-- however, they need to first submit a delegate credential. RCDs can submit delegate credentials and look over the five resolutions on [the Conference announcements page](#).

---

## Funding Opportunities

### Public Comment Period Open for CCNR Grant Program

Draft guidelines have been released for the California Natural Resources Agency's [Cultural, Community and Natural Resources \(CCNR\) grant program](#). The CCNR grant program, funded by Proposition 68, will support projects that protect, restore, and enhance California's cultural, community and natural resources. This program emphasizes and gives priority to projects that serve the State's severely disadvantaged communities. The public comment period is in effect now, and ends on November 12. There will be meetings in Sacramento (October 29), Glendale (November 1), and Madera (November 5), as well as a webcast meeting (October 29) to allow for public comment.

### Public Comment Open for Proposition 68 Grant Program

CDFW has released a draft of its [Proposition 68 Grant Program](#) guidelines which is open for public review and comment. Proposition 68 provides funding to CDFW to award grants to projects that improve a community's ability to adapt to the unavoidable impacts of climate change; improve and protect coastal and rural economies, agricultural viability, wildlife corridors, or habitat; develop future recreational opportunities; or enhance drought tolerance, landscape resilience, and water retention. The deadline to submit comments on the solicitation is October 17.

## Advocacy & Legislation

### MATCH CHALLENGE from Inland Empire RCD

CARCD contracts with Conservation Strategy Group (CSG) to advocate for funding both directly to RCDs (through DOC) and through grant programs to our partners like the conservancies, CAL FIRE, CDFW, DWR and others; make agency partners aware of RCDs to bring in contracts and make it easier for you to do your work; and solve problems that keep you from being able to do your job. CARCD pays for a large portion of the contract directly out of our budget, but we also need RCDs to contribute in order for our partnership with CSG to be sustainable. If we do not receive enough RCD contributions this year to cover our contract, we will have to put our work with CSG on hold – which would be a very difficult decision to make after building so much forward momentum this past year. **The Inland Empire RCD has offered to match \$20,000 toward CARCD operations this year to free up space in our budget so that we can fund CSG work on behalf of the RCDs. So please consider a donation of any amount and that amount will be matched by Inland Empire RCD.** Additional information about the [amazing work that CSG does on behalf of RCDs can be found here](#).

### AB 2377 Bill to Help Farmers Fight Climate Change Signed by the Governor

AB 2377, which enhances technical assistance for climate beneficial agriculture, was signed into law by Governor Jerry Brown late last week. This bill has huge implications for RCDs and CARCD worked hard to advocate for it by collaborating with key partners, testifying at committee meetings, educating members of the legislature, meeting with CDFA, and more. [As CalCAN describes in their update](#), "The bill requires that 5 percent of the annual budgets for the State Water Efficiency and Enhancement Program (SWEET), the Alternative Manure Management Program (AMMP), and the Healthy Soils Program be used to establish a technical assistance grant program offering grants of up to \$100,000 dollars annually for up to three years. The bill prioritizes technical assistance for small and moderately-scaled farms and ranches and requires at least 25 percent of the technical assistance funds available to be provided to socially disadvantaged farmers and ranchers." We appreciate all the hard work that our partners CalCAN put in to realize the bill.

---

## RCD News

### RCD of Santa Cruz County is Hiring a Program Specialist

[RCDSCC is seeking a Program Specialist](#) to join a dynamic team of conservation and agriculture professionals. The Program Specialist will work closely with partners to lead watershed coordination, development and implementation of stewardship in agriculture programs throughout Santa Cruz County and in the Pajaro Valley in particular. Example projects the Program Specialist will lead include coordination of the Community Water Dialogue (a landowner driven

effort to reduce aquifer overdraft in the Pajaro Valley), projects to reduce sediment and pesticide loading from farms, and stormwater collection and infiltration projects. This work supports agriculture's efforts to steward water supplies and protect water quality. The work environment is fast paced, collaborative, and creative.

## Soil Health and Cover Crop Workshop with Sutter County RCD

Sutter County RCD will host a workshop on soil health and cover cropping on October 11, with topics including "Using Cover Crops as a Tool", "Equipment Basics and Calibration Demonstration", and "Cover Cropping Opportunities." Presentations will be given by a local landowner and NRCS and a Punjabi interpreter will be present. You're invited to join them on Thursday, October 11th, 7:30am–12pm in Yuba City. Please click [here for the event flyer](#) and [here for the agenda](#).

*If your RCD has job openings, community events, or announcements that you would like to share with the RCD network, please e-mail me at [sara-schremmer@carcd.org](mailto:sara-schremmer@carcd.org) with the details so that we can include them in an upcoming Weekly Digest.*

---

## Conservation Announcements

### New Assessments of Fire Damage to Watersheds

[Siskiyou Daily News reports](#) that the Burned Area Emergency Response (BAER) will be assessing the Hirz and Delta Fire's potential impacts to watersheds. The Shasta-Trinity National Forest is leading the assessments in partnership with NRCS, BLM, Shasta and Siskiyou counties, Caltrans, and Resource Conservation Districts. The BAER assessment for the fires is vitally important for the current and future management of watersheds within the fire impacted area.

### 13th Annual National Wildland Fire Conference in Texas

[The National Wildland Fire Conference](#) will be hosted in Lost Pines, Texas (located near Austin, TX) at the Hyatt Regency Lost Pines Resort & Spa, May 3-5. This conference was originally a forum for lawyers, experts and others to share their experiences and collaborate in improving how justice is done in wildland fire litigation. After eleven years the conference has grown from one focused on litigation to one which includes the scientific, social, and political aspects of wildland fires.

### 4th Annual Latino Farmer Conference in Santa Maria

The [4th annual Latino Farmer Conference](#) will be a sustainable agriculture conference for Spanish speaking farmers hosted by the National Center for Appropriate Technology (NCAT) and the NRCS. It will be an all day event on Thursday, November 8 at the Radisson Hotel Santa Maria to bring together the Latino farming community, the agriculture industry, advocates for sustainability, and agribusinesses for an exciting day of workshops, networking, and learning from fellow farmers.

### Healthy Soils Program Grows

[A CALmatters post shines a spotlight on rancher Loren Poncia](#) of Stemple Creek Ranch in Marin County. Poncia is

one of than 80 farmers now engaged in a state-funded program aimed at increasing carbon concentrations in California's soil. The California Healthy Soils Initiative took effect a year ago, when the state's cap-and-trade program made \$7.5 million available in small grants to farmers like Poncia. This year, the Healthy Soils Program, one component of the initiative, is receiving about \$15 million. More stories like Poncia's will serve to increase the program's visibility and producer's adoption.

Subject **Invitation to National Conservation Planning Partnership Listening Session**

From Karen Buhr <carcd@memberclicks-mail.net>

Sender <carcd@memberclicks-mail.net>  
<manager@teamrcd.org>

Reply-To <karen-buhr@carcd.org>

Date 2018-10-08 10:25

CALIFORNIA ASSOCIATION OF  
**RESOURCE**  
CONSERVATION DISTRICTS

Dear Conservation Partners,

You are invited to participate in the National Conservation Planning Partnership (NCP) Listening Session to be held in Wyoming on Tuesday, October 16, 2018, from 8 am to 4 pm (MDT). Those unable to attend in person will be able to participate remotely via Adobe Connect. NCP needs and values your feedback, opinions and ideas to help advance conservation planning to the next level in California and across the nation.

Conservation planning continues to be the backbone of our partnership technical assistance with California's policy, training and communications emphasizing the core importance of good science and planning behind our approach and funding decisions.

In 2009, California and our partners embarked on the journey to refocus on conservation planning. NCP was forged based on the working principles of conservation planning and other successful planning states. For example, since 2015 CARCD and NRCS has presented the joint Excellence in Conservation Planning Awards at the CARCD Conference. The Awards celebrate the innovation, commitment and dedication of individuals and partnerships that help farmers and ranchers apply conservation.

Since its formation in FY 2015, NCP has worked to reinvigorate conservation planning on a national scale, and to enhance and strengthen its role in our Mission and in our partnerships. California was one of the states invited to share our efforts in January 2015 at the Conservation Planning Summit and provide input into the national effort.

Since then, NCP, with the help of five subcommittees, has been working to address training gaps, develop technology and tools, address communication needs, strengthen accountability, and provide policy — to ensure we are meeting our customers' expectations for the challenges ahead. We applaud this national support to our efforts

here in California and we highly encourage you to participate in the listening session and voice your valued feedback.

[Click here to join the Listening Session by Adobe Connect](#). Audio will broadcast through Adobe Connect (VoIP). The listening session will be recorded. Please note that you do not have to be on the USDA system to join the session. You can download the app to your computer to participate.

Sincerely,

*Karen Buhr*

### CSDA Annual Conference Highlights

On Wednesday, September 26, during the 2018 CSDA Annual Conference in Indian Wells, the SDRMA Board of Directors introduced SDRMA Chief Executive Officer Laura Gill.

Laura joined the SDRMA family on September 10, 2018 after serving SDRMA in an interim capacity for four months. Laura has an extensive background and knowledge of local government operations through her 31 years of service to local governments, 15 of which have been in chief executive positions in California. She served as the City Manager for the City of Elk Grove for almost ten years and served as the Chief Administrative Officer for the County of El Dorado for over five years. Laura obtained her Masters Degree in Public Administration from the University of North Carolina at Chapel Hill and her Bachelor's Degree from Wake Forest University. Laura has also been designated as a Credentialed Manager by the International City/County Management Association. Laura and her husband, Nav, live in El Dorado Hills with their three children.

The 2018 Annual Safety Awards were presented to the following recipients;

*Property/Liability - Earl F. Sayre Excellence in Safety Awards*  
Herlong Public Utility District  
El Dorado Hills Community Services District

*Workers' Compensation - McMurchie Excellence in Safety Awards*  
Solano County Mosquito Abatement District  
South San Joaquin Irrigation District

Congratulations to all our 2018 Annual Safety Award Recipients!

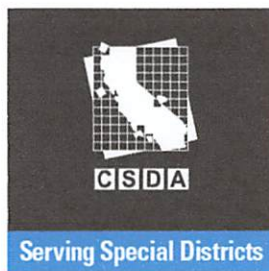

### PRESIDENT'S SPECIAL ACKNOWLEDGEMENT AWARD

This award recognizes members having no paid claims during the prior 5 consecutive program years. There were 261 members (52%) in the Property/Liability Program and 133 members (30%) in the

Workers' Compensation Program receiving the 2018 President's Special Acknowledgement Award.

Congratulations to all our members who received this special recognition and a special thanks to all our members for their continuing loss prevention efforts!

A proud California Special Districts Alliance Partner

Subscribe Now

In addition guest speaker Derreck Kayongo, founder of the Global Soap Project, took us through an emotional journey as he shared his account of life as a Ugandan refugee and the turning point that lead him to a brilliant transformation as a social entrepreneur.

SDRMA also sponsored several workshop sessions throughout the day with attending members earning Credit Incentive Points (CIPs) that will reduce their agency's annual coverage contribution amounts.

### SDRMA MemberPlus Online Enhancement

On October 15, 2018 the SDRMA MemberPlus Online portal will allow members to make scheduled item changes on the current policy. Members will be able to review their scheduled items and make changes through MemberPlus Online on an on-going basis. This new feature includes a quote feature, allowing members to see contribution changes before submitting scheduled item change requests.

Avoid filling out the addition/deletion forms and submit all scheduled item changes through MemberPlus Online. Just click on the Quick Links tab and then click on the Schedule Items link. Contact our Member Services Specialists for assistance at 800.537.7790 or [memberplus@sdrma.org](mailto:memberplus@sdrma.org).

### New Members

The SDRMA Board of Directors approved the following new members at their August 22-23 board meeting;

#### Property/Liability Program (currently 506 members)

Los Olivos Community Services District  
Rock Creek Reclamation District

#### Health Benefits Program (currently 136 groups)

Alpaugh Community Services District

The SDRMA Board of Directors and staff welcomes you to SDRMA and are here to serve all your risk management needs!

ALWAYS MEMBER FOCUSED.

### **Agri-Pulse: Christiansen sworn in to bring 'new vision' to Forest Service**

By Spencer Chase

10/11/18

Vicki Christiansen was sworn in as the 19th Chief of the United States Forest Service Thursday. For her part, Christiansen, who joined the Forest Service in 2010 and has been serving as interim chief since March, rolled out plans to operate the agency in a way consistent with its mandate to preserve the nation's forests.

### **AP News: US states agree on plan to manage overtaxed Colorado River**

By Dan Elliott

10/09/18

Seven Southwestern U.S. states that depend on the overtaxed Colorado River have reached landmark agreements on how to manage the waterway amid an unprecedented drought, including a commitment by California to bear part of the burden before it is legally required to do so. The agreements are tentative and must be approved by multiple states and agencies as well as the U.S. government.

**ABC News: Congress approves massive water-projects bill**

By Matthew Daly

10/10/18

☞ Congress has approved a sprawling bill to improve the nation's ports, dams and harbors, protect against floods, restore shorelines and support other water-related projects. America's Water Infrastructure Act of 2018 would authorize more than \$6 billion in spending over 10 years for projects nationwide, including one to stem coastal erosion in Galveston, Texas, and restore wetlands damaged by Hurricane Harvey last year.

**Capital Press: Western Innovator: Researcher establishes grazing as fire tool**

By Brad Carlson

10/04/18

Rangeland scientists in southeastern Oregon for years produced studies showing earlier grazing reduces future fire risk while benefiting native plants. Now they are working to figure out how to apply these lessons on the larger scale that the vast sagebrush steppe landscape often demands.

**CNN: Federal officials will round up 1,000 wild horses in California. Some may end up in slaughterhouses**

By Christina Maxouris and Brandon Griggs

☞ 10/08/18

"Our territory is supposed to have 206 to 402 animals, we have almost 4,000 horses," Modoc National Forest Supervisor Amanda McAdams said. The plateau is 258,000 acres, but McAdams said there's not nearly enough vegetation and water to support all the horses. The horses have been feeding on limited foliage and drinking up most of the water supply, leaving little behind for other wild animals.

**The Current: Finding Middle Ground on the Range**

By Jenny Seifert

10/01/18

Cattle ranching and conservation may seem an unusual pair in the American West, but new research reveals a clear link between the economic health of ranches and the ability to maintain habitat for an iconic wild bird that for years has been at the center of public land policy debate: the greater sage grouse.

**Agri-Pulse: States' roles in species conservation explored**

☞ By Steve Davies

10/10/18

States need to play a larger role in protecting and recovering endangered species, the chairman of the Environment and Public Works Committee said at a hearing Wednesday that looked at federal, state and local efforts to collaborate on wildlife conservation.

**Ag Web:** Waterhemp Discovered With Resistance To 6 Herbicides

By Sonja Begemann

10/10/18

It's a thing of nightmares—a towering, aggressive weed that defies modern management by evading death by herbicide. Just south of Moberly, Mo., researchers confirmed waterhemp with resistance to six herbicide modes of action.

**MinnPost:** State grant program offers money, and legitimacy, for urban agriculture

By Taryn Phaneuf

10/09/18

State funding, even a small amount, can usher in a shift toward seeing urban areas as potential farms and their residents as fellow food producers. That shift can also bring education and economic opportunities that are often more associated with rural areas.

**AgPro:** Paid-In-Full Cover Crop Program Available

By Sonja Begemann

10/09/18

Stine Seed and Peoples Company are partnering to offer landowners a paid-in-full, managed cover crop program. Their goal is to show landowners it's possible to both protect the environmentally sensitive areas, maximize yield on productive acres, and improve return on investment.

**Wallaces Farmer:** Cover crops popular among seed corn farmers

By Shannon Moeller

10/04/18

Cover crop use among Iowa's seed corn growers has escalated in the past few years. This is largely due to a Water Quality Initiative grant through the Iowa Department of Agriculture and Land Stewardship. The grant provides education and cost-share funds to seed corn growers through the Iowa Seed Corn Cover Crops Initiative.

CALIFORNIA ASSOCIATION OF  
**RESOURCE**  
CONSERVATION DISTRICTS

Dear Colleagues,

In service to all RCDs throughout the state, the CARCD team is always on the lookout for events, news, funding opportunities, and any other resources that could be relevant to the important work that you do in your communities. Please see below for this week's digest of announcements.

If you have questions about any of the content listed below, please don't hesitate to contact us.

Thank you and Happy Friday!

---

## In This Issue:

1. [CARCD Updates](#)
  2. [Funding Opportunities](#)
  3. [Advocacy & Legislation](#)
  4. [RCD News](#)
  5. [Conservation Announcements](#)
- 

## CARCD Updates

## Register for the Soil Health Summit and Other Conference Extras

Registration for conference extras is now live! [Use this link to sign up](#) for our Friday night dinner, Wednesday Soil Health Summit (no cost), and Wednesday Solid Ground Capacity Building (no cost).

## Call for Silent Auction Contributions

The CARCD Conference is coming up in just six weeks, and now is a great time to start collecting items for the annual silent auction. The silent auction is an important part of being able to keep the conference affordable and we want to say a big thank you for all the generous contributors who make it possible every year. Simply bring your item to one of the registration table at the conference and bidding will close 11 am on Friday.

## Nominate Your Favorites for the Conference

[Nomination forms are live](#) so don't forget to show some appreciation for who you think deserves Director of the Year, District of the Year, Employee of the Year, and Volunteer of the Year. There will be an award ceremony at the annual conference in November. **At this moment we only have a few nominations for director of the year, and none for the categories Employee, Volunteer, and District of the year.** Don't miss your chance! Forms will close on October 16.

## Breakout Sessions and Agenda for CARCD Conference Out Now

We are excited to announce the release of our preliminary [breakout sessions](#) and [conference agenda](#)! This year's conference will feature opening session speakers including Claire Jahns from the Natural Resource Agency, Louise Bedsworth from the CA Strategic Growth Council, Sam Schuchat with the Coastal Conservancy, and John de Graaf, author and filmmaker. There will be over 45 presentations in three breakout session tracks including topics on: Transformative Working Lands, Forests and Fires, Urban Community Adaptation, Water Conservation, and Conservation Tools. You can find additional [information about our conference here](#).

## Announcing CARCD Board's Resolutions

CARCD appreciates all the hard work the RCD community has engaged in as it strives towards the goal of being visible, relevant and excellent!! We have all rolled up our sleeves and the results of that effort are being realized and becoming more apparent every day. As a network we are getting stronger and more able to reach our goals. In order to be able to meet the growing needs you have, CARCD has also been working hard to strengthen its ability to support you. As a small part of this effort, the CARCD Board is proposing that the CARCD membership approve five resolutions at the 2018 Annual Business Meeting. All dues-paying RCD members can vote on these resolutions--however, they need to first submit a delegate credential. RCDs can submit delegate credentials and look over the five resolutions on [the Conference announcements page](#).

---

## Funding Opportunities

### Public Comment on Draft Guidelines for Prop 68

Proposition 68 provides funding to CDFW to award grants to projects that improve a community's ability to adapt to

the unavoidable impacts of climate change; improve and protect coastal and rural economies, agricultural viability, wildlife corridors, or habitat; develop future recreational opportunities; or enhance drought tolerance, landscape resilience, and water retention. The deadline to submit comments on [Prop 68 grant draft guidelines](#) is October 17.

## Prop 1's Draft Solicitation Documents for Public Comment

The Department of Water Resources released the 2018 Proposition 1's Round 1 IRWM Implementation Grant Draft Proposal Solicitation Package and IRWM Grant Program Guidelines for public review. The public comment period will close on November 20. Three public meetings will be held in November which are pending to be announced. See all [details on their site here](#).

## Alternative Manure Management Program Open for Public Comments

The AMMP provides financial assistance for the implementation of non-digester manure management practices in California. CDFA will hold four listening sessions (Eureka, Santa Rosa, Tulare, Modesto) and a webinar in October to provide information on how to comment on the draft RGA and answer questions related to the program. The [deadline to submit comments](#) is November 5.

---

## Advocacy & Legislation

### MATCH CHALLENGE from Inland Empire RCD

CARCD contracts with Conservation Strategy Group (CSG) to advocate for funding both directly to RCDs (through DOC) and through grant programs to our partners like the conservancies, CAL FIRE, CDFW, DWR and others; make agency partners aware of RCDs to bring in contracts and make it easier for you to do your work; and solve problems that keep you from being able to do your job. CARCD pays for a large portion of the contract directly out of our budget, but we also need RCDs to contribute in order for our partnership with CSG to be sustainable. If we do not receive enough RCD contributions this year to cover our contract, we will have to put our work with CSG on hold – which would be a very difficult decision to make after building so much forward momentum this past year. **The Inland Empire RCD has offered to match \$20,000 toward CARCD operations this year to free up space in our budget so that we can fund CSG work on behalf of the RCDs. So please consider a donation of any amount and that amount will be matched by Inland Empire RCD.** Additional information about the [amazing work that CSG does on behalf of RCDs can be found here](#).

---

## RCD News

### Opening for Program Assistant at RCD of Greater San Diego County

The RCD is [seeking a Program Assistant](#) to support a new carbon farming demonstration project and the management of the Tijuana River Valley Community Garden. Please share with your networks and have any candidates apply by October 26.

## Antelope Valley RCD's First Annual Fall Festival

AVRCD is celebrating fall with its [first Fall Festival on](#) October 27 & 28 at its nursery in Lancaster. The event is free and family friendly. Join them for hot air balloon rides, a petting zoo, activities for kids, pumpkins and more!

## RCD of Greater San Diego County Website Launch

Congratulations to RCDGSDC for launching their new website! [Take a stroll around their digital home here](#).

## San Mateo RCD featured in Half Moon Bay Review

The Half Moon Bay Review's article "[Carbon Farming Bears Different Fruit](#)" threw a spotlight on the RCD's work creating carbon framing plans with landowners and provided good coverage for RCDs as a whole. It's a good read, please check it out.

## Mendocino County RCD featured in Fort Bragg Advocate News

MCRCD's role in fire prevention and recovery [is highlighted in an article](#) about a community showing of "Wilder Than Wild", a documentary about the Rim Fire that burned 257,000 acres in and around Yosemite in 2013. Mary Mayeda, forester, represented the Mendocino County Resource Conservation District at a Q&A panel after the showing, and among many topics spoke about the important role that fire safe councils can play in prevention and recovery.

*If your RCD has job openings, community events, or announcements that you would like to share with the RCD network, please e-mail me at [sara-schremmer@carcd.org](mailto:sara-schremmer@carcd.org) with the details so that we can include them in an upcoming Weekly Digest.*

---

## Conservation Announcements

### Introduction to Grassland Soils Workshop

Join California Native Grasslands Association's at their workshop, "[Introduction to Grasslands Soils](#)" on November 2. Find more information and register online at [Introduction to Grasslands Soils](#), Yolo County. The event will take place at Joe A. Heidrick Western Center for Agricultural Equipment at UC Davis. Should you have questions about this event, please contact CNGA at the 530-9026009 or [admin@cnga.org](mailto:admin@cnga.org). Please [share their flyer](#) to partners who might be interested.

### Soil Health Academy at Chico State

The Regenerative Agriculture Initiative is offering an [intensive short course on soil health](#) geared towards farmers and taught by farmers. The course will be on November 13-15. Instructors include Gabe Brown, Ray Archuleta, and Allen Williams.

## NCPP's Hugh Hammond Bennett Award for Conservation Excellence

The National Conservation Planning Partnership is [calling on nominations](#) to recognize an outstanding producer and

conservation planner for the Hugh Hammond Bennett Award for Conservation Excellence. Those interested in making a nomination should notify their respective NCPP State partner leader. Submit nominations by email to [beth-mason@nacdn.net](mailto:beth-mason@nacdn.net) no later than November 2. Nominations must be received using [the nomination form](#) outlining how the producer or individual has met the award criteria. If you have any questions, please contact Stacy Koch, NCPP coordinator at [stacy.koch@wdc.usda.gov](mailto:stacy.koch@wdc.usda.gov) or 570-925-5531.

## Food, Fiber and Farms of the Future Celebration

Enjoy an evening celebrating and learning about the [food, fiber, and farms of the future on October 18](#) at Stemple Creek Ranch. Organized by the Jefferson Center, the afternoon field walk and happy hour talks will highlight hands-on landscape impacts and describe how programs like Climate Beneficial Wool are cultivating pathways for ecologically and economically sound agriculture. A presentation from the PastureMap team will offer insights into landscape management tools for farms for the future, and leadership from the Savory Institute will share how the Land to Market program provides support for shifting to holistic management. There are discounts for producers, RCDs and TSPs. Please contact Jess at [office@fibershed.com](mailto:office@fibershed.com) if you are interested.

## Innovations in Invasive Species Management Conference

Invasive Plant Control Selectivity Specialists' [Innovations in Invasive Species Management Conference](#) will be held in Nashville, Tennessee December 12-14 at the Gaylord Opryland Hotel and Convention Center. Find all the details on their conference website. Contact Steven Manning at [steve@ipc-inc.org](mailto:steve@ipc-inc.org) or 615-969-1309 if you have any questions.

## Hedgerow Planting Demonstration

There will be a [hedgerow planting demonstration](#) on November 10 at Monkeyflower Ranch in Royal Oaks. It will cover topics like the benefits of hedgerows, a farm tour, a discussion of plant care, hedgerow design and plant selection, NRCS EQIP money and CDFA Healthy Soils Program grant support available for hedgerow and other practices, and a demonstration of planting for maximum success.

## Federal Reimbursement for Organic Certification Fees

In an effort to make the USDA Organic Seal more accessible, the federal government has created a reimbursement opportunity for organic producers and handlers called the [National Organic Certification Cost Share Program](#). This is an important step in making organic certification more affordable, please see the CDFA's [blog post about it for more details](#).

## CDFA to Host Science Advisory Panel for Discussion on SWEEP

CDFA will host the next public meeting of the Environmental Farming Act – Science Advisory Panel on October 18 in Sacramento. The meeting will include a discussion of the public comments received on the SWEEP between July 25 and September 12. [Meeting information, including agenda and location, are available here](#).

## Wildly Successful Farming Tells Farmer Stories

Wildly Successful Farming tells the stories of farmers across the American Midwest who are balancing profitability and food production with environmental sustainability and a passion for all things wild. Written by agricultural journalist Brian DeVore, the book is based on interviews he has conducted at farms, wildlife refuges, laboratories,

test plots, and gardens over the past twenty-five years. He documents innovations in cover cropping, managed rotational grazing, perennial polyculture, and integrated pest management. [Order directly](#) from the University of Washington Press.

#### NACD ANNOUNCES LINE-UP OF 16 BREAKOUT SESSIONS

NACD's 73rd Annual Meeting [2] will be held Feb. 2-6, 2019 in San Antonio, Texas. During Monday and Tuesday, NACD will feature 16 breakout sessions focusing on the work of conservation districts and their partners. The sessions, which sometimes feature several speakers, are aligned into four themed tracks: Communications; District Operations, Member Services and Partnerships; Natural Resources Policy and Protection; and Stewardship and Education.

Visit the 2019 ANNUAL MEETING BREAKOUT SESSIONS PAGE [3] to read session descriptions and plan for the sessions you would like to attend.

By attending NACD's Annual Meeting breakout sessions, meeting-goers will learn how to improve district social marketing strategies and community outreach; maximize partnerships and planning to increase district operations efficiency; and tailor conservation opportunities to advance districts' impact. Additional sessions include:

- \* Improving Water Quality Outcomes from Agricultural Practices
- \* USDA Climate Hub Toolkit
- \* Smart Solar Siting
- \* Interactive Story Maps - How to Enhance District Reports
- \* Spreading the Conservation District Message
- \* Pathways to Water Quality
- \* Increasing Public Engagement
- \* Building Capacity Through Partnership
- \* Innovative Approaches to Tribal Partnerships

#### FIRST TIME ATTENDEE SCHOLARSHIPS AVAILABLE

Thanks to the generous support of AGRI DRAIN and WARNER RANCH, NACD will be offering first-time meeting attendees complimentary meeting registration and a ticket to Tuesday night's Appreciation Banquet. Only one person per state or territory may receive a scholarship, and chosen individuals must stay in the NACD room block at the Marriott Rivercenter [4].

Once a state or territory association selects a scholarship recipient in cooperation with their NACD board member, they will send the recipient's name and email address BY FRIDAY, DEC. 14 to NACD Director of Membership Kimberly Ulricks to complete their registration. To submit a name for consideration, please contact your state or territory association [5].

#### NACD SEEKS AUCTION DONATIONS

NACD's Annual Meeting Live Auction [6] provides meeting attendees with the opportunity to raise money to support locally-led conservation. The funds raised each year generate a positive impact on the future of America's natural resources.

Join NACD during the 2019 Annual Meeting Live Auction [7] on Monday, Feb. 4. Featuring returning auctioneer and crowd favorite JOHNNY REGULA, this year's auction is sure to feature handcrafted quilts and craft;, beautiful, one-of-a-kind jewelry; top-of-the-line farm equipment and supplies; and more. To donate an item, or to donate an item as a district or state association, please fill out this form [8]. All donation forms and photos must be submitted by FRIDAY, NOV. 30 to be included in the 2019 auction booklet.

The Live Auction also provides businesses and organizations with the opportunity to gain exposure to potential customers or clients. Equipment donations, gift certificates, all-inclusive trips or outdoor experiences help fund the conservation delivery system at the local, state and national level. Have questions about donations? Contact NACD SOUTH CENTRAL REGION REPRESENTATIVE KEITH OWEN at [keith-owen@nacdnet.org](mailto:keith-owen@nacdnet.org).

THANK YOU TO THE SPONSORS WHO MAKE THIS MEETING POSSIBLE:

#### PLATINUM

#### SILVER

Learn more about the 2019 Annual Meeting sponsors on the sponsor webpage [14].

#### ORDER A COMMEMORATIVE ANNUAL MEETING T-SHIRT

This commemorative seafoam Comfort Colors t-shirt is 100% cotton and hand-dyed for a unique, vintage look. The 2019 Annual Meeting t-shirt [15] boasts the silhouette of Texas and NACD's logo on a functional front pocket, and features a 73rd Annual Meeting graphic on the back. These quality t-shirts have a thicker feel and heavier weight than your traditional t-shirt and fit slightly large. Shirts must be purchased by Dec. 31 and will be available for pick-up in the Conservation Expo at the Stewardship and Education Booth when the expo hall opens Sunday morning.

#### RESERVE YOUR HOTEL ROOM

NACD's 2019 Annual Meeting will be held at the Marriott Rivercenter in downtown San Antonio, steps away from the world-famous River Walk. The room rate is \$214 per night, plus tax. Make your reservations online [16] or by calling 1-800-648-4462 and saying you're with the NACD Annual Meeting. Reservations must be made before FRIDAY, JAN. 11, 2019.

#### 2019 ANNUAL MEETING DEADLINES

- \* NOV. 30 - Auction Donation Deadline
- \* DEC. 3 - Sponsor and Expo Commitment Deadline
- \* DEC. 14 - Early Bird Registration Deadline
- \* JAN. 11 - Hotel and Registration Deadline

NACD | 509 Capitol Court NE | Washington, DC 20002 | (202) 547-6223

Subject: One Week Left to Register for the FREP/WPHA Conference!  
Date: 2018-10-12 09:44  
From: "CDFA FREP@CDFA" <[Frep@cdfa.ca.gov](mailto:Frep@cdfa.ca.gov)>  
To:

REGISTER NOW FOR THE FREP/WPHA CONFERENCE! ONLINE REGISTRATION IS AVAILABLE THROUGH FRIDAY, OCTOBER 19.

The California Department of Food and Agriculture's (CDFA) Fertilizer Research and Education Program (FREP) and the Western Plant Health Association (WPHA) are hosting their 26th annual fertilizer research conference at the Embassy Suites Hotel in Seaside, California, on October 23-24, with a pre-conference farm tour on October 22. This event brings together industry professionals and academic researchers to learn about the latest research and innovative management practices for fertilizing materials.

The conference is \$220 for both days, and currently enrolled students pay only \$130 for both days. The farm tour is \$25. Walk-in registration will also be available.

More information about the pre-conference farm tour [[1](#)], continuing education units, and registration is available on the FREP blog [[2](#)] and the FREP [[3](#)] website.

Fertilizer Research and Education Program

California Department of Food and Agriculture

1220 N St., Sacramento, CA 95814

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN DIEGO REGION**

***TENTATIVE***

**INVESTIGATIVE ORDER NO. R9-2019-0007**

**AN ORDER DIRECTING  
THE CITIES OF MENIFEE, MURRIETA, TEMECULA, AND WILDOMAR,  
THE COUNTIES OF SAN DIEGO AND RIVERSIDE,  
THE RIVERSIDE FLOOD CONTROL AND WATER CONSERVATION DISTRICT,  
AND THE UNITED STATES MARINE CORPS BASE CAMP PENDLETON  
TO DESIGN AND IMPLEMENT  
A WATER QUALITY IMPROVEMENT MONITORING AND ASSESSMENT PROGRAM FOR  
EUTROPHIC CONDITIONS IN THE SANTA MARGARITA RIVER ESTUARY AND  
WATERSHED, CALIFORNIA**

**WHEREAS**, The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board), finds that:

- 1. Purpose of Order:** The purpose of this Investigative Order (Order) is to assess the condition of the Santa Margarita River Estuary (Estuary) and to evaluate the linkage between the nutrient loading trends resulting from implementation actions by the Cities of Menifee, Murrieta, Temecula, and Wildomar, the Counties of San Diego and Riverside, the Riverside Flood Control and Water Conservation District, and the United States Marine Corps Base Camp Pendleton (collectively referred to hereafter as Dischargers) and the restoration of the water quality and beneficial uses in the Estuary.
- 2. Basis for Requiring Reports:** California Water Code (Water Code) section 13267 provides that the San Diego Water Board may require dischargers, past dischargers, or suspected dischargers to furnish technical or monitoring reports as the San Diego Water Board may specify, provided that the burden, including costs, of these reports shall bear a reasonable relationship to the need for the reports. The Findings in this Order, and its attachments, provide the explanation and evidence supporting the requirements of this Order.
- 3. Estimated Implementation Costs of Investigative Order:** The estimated costs associated with the implementation of the directives included in this Investigative Order are provided in Table 1:

**Table 1**  
**Estimated Costs to Develop and Conduct Estuary and Watershed Monitoring, Assessment, and Reporting.**

<b>Task</b>	<b>Estimated Yearly Monitoring and Reporting Costs</b>	<b>Estimated Cost for Ten Years of Monitoring and Reporting</b>
Prepare Workplan and QAPP	One Time Cost	\$30,000
Field Work	\$250,000	\$2,500,000
Laboratory Analysis, Materials, Supplies	\$200,000	\$2,000,000
Report Preparation	\$75,000	\$750,000
Estimated Total	\$525,000	\$5,280,000

4. **Santa Margarita River Estuary:** The Estuary is located along the southern California coast in northern San Diego County on the southwestern edge of the United States Marine Corps Base Camp Pendleton (Camp Pendleton). The Estuary is one of the few remaining and largely unmodified coastal estuaries in southern California, providing 192 acres of valuable estuarine habitat including mudflats, salt pannes, salt marsh, and subtidal habitats. This unique estuarine habitat provides important refuge, foraging areas, and breeding grounds for several threatened and or endangered species, as well as coastal marine species. These include populations of State and federally endangered or threatened species such as the California Least Tern (*Sterna antillarum browni*), Western Snowy Plover (*Charadrius alexandrinus nivosus*), Tidewater Goby (*Eucyclogobius newberryi*), Belding's Savannah Sparrow (*Passerculus sandwichensis beldingi*), Light-footed Ridgway's Rail (*Rallus obsoletus levipes*), and Southern California Steelhead (*Oncorhynchus mykiss*).
5. **Santa Margarita River Estuary Watershed:** The Estuary's watershed (Watershed) drains into the Pacific Ocean and covers an area of approximately 750 square miles, encompassing portions of both Riverside County and San Diego County. Approximately 73.5 percent of the Watershed land surface falls within Riverside County, which includes all or portions of the Cities of Murrieta, Temecula, Menifee, and Wildomar. The remaining 26.5 percent of the Watershed is in San Diego County, where Camp Pendleton and the unincorporated communities of Fallbrook and Rainbow are located.

The Estuary and its 750 square mile Watershed comprise the Santa Margarita Hydrologic Unit (HU 902). This Hydrologic Unit includes nine hydrologic areas: Ysidora (902.1), De Luz (902.2), Murrieta (902.3), Auld (902.4), Pechanga (902.5), Wilson (902.6), Cave Rocks (902.7), Aguanga (902.8), and Oak Grove (902.9). Major surface waterbodies in the Hydrologic Unit include: the Santa Margarita River, Rainbow Creek, De Luz Creek, Sandia Creek, Temecula Creek, Murrieta Creek, Vail Lake, Skinner Reservoir, and the Estuary.

**6. Basin Plan:** Water quality standards applicable for the Estuary are presented in the Water Quality Control Plan for the San Diego Basin (Basin Plan). The Basin Plan:

- a. Designates beneficial uses for surface waters and groundwaters;
- b. Sets narrative and numerical objectives that must be attained or maintained to protect the designated beneficial uses and conform to the State's antidegradation policy;
- c. Describes implementation programs to protect the beneficial uses of all waters in the Region; and
- d. Describes surveillance and monitoring activities to evaluate the effectiveness of the Basin Plan.

**7. Water Quality Standards – Basin Plan Beneficial Uses:** The Basin Plan designates the following eight existing beneficial uses for the Estuary:

- a. Contact Water Recreation (REC 1)
- b. Non-Contact Water Recreation (REC 2)
- c. Estuarine Habitat (EST)
- d. Wildlife Habitat (WILD)
- e. Rare, Threatened, or Endangered Species (RARE)
- f. Marine Habitat (MAR)
- g. Migration of Aquatic Organisms (MIGR)
- h. Spawning, Reproduction, and/or Early Development (SPWN)

**8. Water Quality Standards – Basin Plan Water Quality Objectives:** The Basin Plan contains Water Quality Objectives (WQOs) developed to protect the most sensitive beneficial uses designated for a water body. The WQO for biostimulatory substances includes a narrative WQO and a numeric interpretation.

- a. Narrative WQO: Inland surface waters, bays and estuaries and coastal lagoon waters shall not contain biostimulatory substances in concentrations that promote aquatic growth to the extent that such growths cause nuisance or adversely affect beneficial uses.
- b. Numeric Interpretation: The numeric interpretation of the biostimulatory substances WQO for inland surface waters, enclosed bays and estuaries, and coastal lagoons is:

*Concentrations of nitrogen and phosphorus, by themselves or in combination with other nutrients, shall be maintained at levels below those which stimulate algae and emergent plant growth.*

*Threshold total phosphorus (P) concentrations shall not exceed 0.05 milligrams per liter (mg/l) in any stream at the point where it enters any standing body of water, nor 0.025 mg/l in any standing body of water. A desired goal in order to prevent plant nuisance in streams and other flowing waters appears to be 0.1 mg/l total P. These values are not to be exceeded more than 10% of the time unless studies of the specific water body in question clearly show that water quality objective changes are permissible, and changes are approved by the San Diego Water Board.*

*Analogous threshold values have not been set for nitrogen compounds; however, natural ratios of nitrogen to phosphorus are to be determined by surveillance and monitoring and upheld. If data are lacking, a ratio of N:P = 10:1, on a weight to weight basis shall be used.*

- 9. Clean Water Act Section 303(d) List of Water Quality Limited Segments:** The Clean Water Act (CWA) section 303(d) requires each state to identify waters for which effluent-based discharge limitations are not stringent enough to implement any water quality standards, prioritize those waters based on the severity of the pollution and the uses of the waters, and establish Total Maximum Daily Loads (TMDLs) for pollutants at a level necessary to implement the applicable water quality standards. The Estuary was placed on the Clean Water Act section 303(d) List of Water Quality Limited Segments (303(d) List) in 1996 due to eutrophic conditions.

Eutrophic conditions in the Estuary are caused, in part, by excess nutrient loading from polluted groundwater, agricultural discharges, and upstream non-storm water and illicit discharges from upstream Municipal Separate Storm Sewer Systems (MS4s). Loading of nutrients to the Estuary, combined with reduction of tidal flushing due to the buildup of a sand berm at the mouth of the Estuary, higher surface water temperatures, lower salinity, and longer duration of daylight (especially during the summer months) promotes excessive macroalgal growth. These macroalgal blooms eventually collapse due to self-shading — blocking of sunlight required for photosynthesis caused by overcrowding — leading to rapid algal die off and decomposition. Also, because the decay of macroalgae is an aerobic bacterial decomposition process, the breakdown of dead algae reduces the dissolved oxygen content of the Estuary to concentrations that impair beneficial uses.

When eutrophic conditions are present, the Estuary does not meet the WQOs for dissolved oxygen and biostimulatory substances found in the Basin Plan. The impairment of the Estuary impacts sensitive species like salmonids and designated EST, MIGR, RAR, SPWN, REC-1, and REC-2 beneficial uses.

**10. Water Quality Impairment of Santa Margarita River Estuary:** Eutrophication is defined as excessive nutrient loading resulting in prolific algal growth and low dissolved oxygen which leads to physiological stress or mortality in aquatic life. Eutrophication produces adverse ecological effects and creates a condition of public nuisance. Eutrophic conditions within the Estuary restrict the ability of its water to support the beneficial uses designated in the Basin Plan. The beneficial uses of the Estuary that are most sensitive to eutrophic conditions are: EST, MIGR, RARE, and SPWN. Eutrophication also adversely affects the REC-1 and REC-2 beneficial uses. The impairment is primarily limited to dry-weather conditions.

The impairment of the Estuary was confirmed during an impairment assessment conducted by the Southern California Coastal Research Project (SCCWRP) between 2008 and 2009, in response to Investigative Order No. R9-2006-0076 issued by the San Diego Water Board. According to the findings of the impairment assessment presented in the [\*Eutrophication and Nutrient Cycling in Santa Margarita River Estuary\*](#) report, an average macroalgal biomass greater than 700 grams of wet weight per meter squared (g wet weight m<sup>2</sup>) would indicate eutrophic conditions. The results from Investigative Order No. R9-2006-0076 found high average macroalgal biomass (1465 to 1714 g wet weight m<sup>2</sup>) and macroalgal cover of up to 100 percent. Since the impairment assessment was completed, to more accurately measure macroalgal biomass, the protocol was changed to measure dry weight rather than wet weight. Data collected by the U.S. Navy's Space and Naval Warfare Systems Command (SPAWAR) in the Estuary between 2014 and 2016 continue to show evidence of eutrophic conditions manifested as excessive macroalgal blooms. SPAWAR's data show average macroalgal biomass values as high as 416 g dry weight m<sup>2</sup>, almost five times above the 90 g dry weight m<sup>2</sup> threshold where biological integrity is likely to be impacted, as discussed in the section 6, Numeric Targets, of the Draft Staff Report (Appendix A).

The impairment is caused by excessive amounts of total nitrogen and total phosphorus entering the Estuary during dry-weather conditions in the summer and winter months. Significant sources of total nitrogen and total phosphorus (nutrients) entering the Estuary include: resurfacing groundwater polluted with nutrients, agricultural discharges, and upstream non-storm water discharges from agriculture and municipal separate storm sewer systems (MS4s) discharging into the Santa Margarita River and its tributaries. These factors combined with dry-weather conditions contribute to excessive algal growth and low dissolved oxygen, leading to adverse eutrophic conditions that exceed the WQO for biostimulatory substances.

Monitoring by SPAWAR on behalf of United States Marine Corps Base Camp Pendleton has shown that the ongoing discharge of nutrients into the Estuary through rising polluted groundwater beneath adjacent former agricultural fields continues to take place today.

**11. Purpose and Definition of Total Maximum Daily Load:** A Total Maximum Daily Load (TMDL) is a calculation of the loading capacity that can be assimilated by the Estuary for each impairing pollutant. A TMDL is a planning tool for restoring water quality conditions that support designated beneficial uses by identifying the assimilative capacity of a water body, estimating uncontrollable load allocations, and assigning waste load allocations to sources that can be controlled.

The calculations can also be used to support an alternative approach to a formal TMDL if there are regulatory mechanisms (e.g. NPDES permits and WDRs) with requirements that can achieve the load reductions necessary to meet the calculated TMDL.

**12. Estuary TMDL Project and Calculations:** The San Diego Water Board in collaboration with the Santa Margarita River Estuary Watershed Nutrient Initiative Stakeholder Group developed a project to calculate proposed TMDLs for the Estuary, identify the numeric targets, and the reduction in pollutant loadings necessary to restore beneficial uses of the Estuary. These calculations are presented in a Draft Staff Report (Appendix A). The proposed TMDLs have not been adopted by the San Diego Water Board but can be used to support a Basin Plan Amendment, or other regulation, as necessary.

The Draft Staff Report calculated that the Estuary can assimilate 13,246 pounds of delivered total nitrogen and 1,528 pounds of delivered total phosphorus per year during the dry weather impairment period and still meet the numeric targets necessary to achieve compliance with WQOs. This represents a 76 percent nutrient load reduction to the Estuary relative to water year 2008 (see Appendix A for details).

**13. Santa Margarita River Estuary Seasonal Variability:** Critical conditions for the Estuary include both the summer-dry (May through September) and winter-dry (October through April) weather conditions. While the most severe eutrophic conditions in the Estuary are likely to be encountered during the peak summer dry-weather, when the weather is warmer, days are longer, and the exchange with the Ocean is blocked by the buildup of a sand berm, excessive macroalgal growth has also been documented during winter-dry weather.

**14. Numeric Targets:** Numeric targets are specific goals for TMDLs that ensure the protection of designated beneficial uses of waters and provide a basis for data analysis and allocations. The Draft Staff Report (Appendix A) identifies the macroalgal biomass, dissolved oxygen, and benthic community condition numeric targets that can be used to measure the restoration of beneficial uses in the Estuary (Table 2).

**Table 2**  
**Santa Margarita River Estuary Numeric Targets in the Draft Staff Report**

<b>Metric</b>	<b>Primary Numeric Target</b>	<b>Secondary Numeric Target</b>	<b>Applicable Season</b>
Surface Water Macroalgal Biomass	≤57 grams dry weight m <sup>2</sup>	≤70 grams dry weight m <sup>2</sup>	Winter Dry and Summer Dry
Water Column Dissolved Oxygen	Daily minima ≥5.0 mg/L	7-day average daily minimum measurements ≥5.0 mg/L  10 percent allowable exceedance	Winter Dry and Summer Dry
Benthic Community Condition Score	---	≤2.0 (Low Disturbance based on Sediment Quality Objectives (SQO) scale)	Winter Dry and Summer Dry

**15. Nutrient Numeric Endpoints:** The San Diego Water Board developed the final numeric targets for the Estuary through a stakeholder process. To develop these numeric targets, the San Diego Water Board in collaboration with the Santa Margarita River Watershed Nutrient Initiative Stakeholder Group (Stakeholder Group) used the nutrient numeric endpoint (NNE) framework approach for California estuaries developed by SCCWRP for the State Water Board. Stakeholder Group members and technical advisors that participated in the development of the Estuary project included:

- California State University Sacramento, Center for Collaborative Policy
- Caltrans
- CalTrout
- County of San Diego
- Rancho California Water District
- Riverside County Flood Control and Water Conservation District
- Larry Walker and Associates
- NAVY SPAWAR Systems Center Pacific
- Pechanga Band of Luiseno Indians
- Sierra Club
- San Diego County Farm Bureau
- Southern California Coastal Water Research Project
- Stetson Engineers
- U.S. EPA
- United States Marine Corps Base Camp Pendleton

The NNE framework provides a scientifically defensible methodology for interpreting the narrative biostimulatory WQO, and this Investigative Order relies on using the NNE approach to assess the condition of the Estuary and determine protection of the most sensitive beneficial uses (EST, MIGR, RARE, and SPWN). The NNE approach ensures the control of excess nutrient loads to levels such that the risk of impairing the designated beneficial uses is minimized.

The NNE framework is founded on the premise that site-specific ecological response variables, such as dissolved oxygen concentrations, macroalgal biomass, and benthic community condition score combined with a weight of evidence approach provide a more direct and robust means of assessing beneficial use impairment than relying on nutrient concentrations alone. Because fixed nutrient concentrations may or may not result in protection from eutrophication for a particular water body, using the NNE approach is more protective of beneficial uses. Hence, numeric targets represent the values for ecological response indicators at which beneficial uses are protected.

**16. Estuary Water Quality Restoration Approach:** According to the analysis presented in the Draft Staff Report (Appendix A), the enforcement and full implementation of the prohibitions and requirements in the Regionwide Agricultural Waste Discharge Requirements (WDRs), Regional MS4 Permit, and Statewide Phase II MS4 Permit, combined with natural attenuation of polluted groundwater sources is expected to achieve the load reductions necessary to restore the beneficial uses of the Estuary.

As discussed in the Draft Staff Report, this approach is realistic because after the 2006 Investigative Order that found widespread eutrophication, two major sources of nutrients to the Estuary have ceased and the San Diego Water Board has issued stronger discharge requirements to MS4s and Agricultural operations.

**17. Persons Responsible for the Discharges:** Loading of total nitrogen and total phosphorus into the Estuary from Phase I and Phase II MS4 dischargers (MS4 dischargers) and agricultural dischargers represent the largest controllable sources of nutrients.

The owners and operators of MS4s in the Watershed are responsible for discharges of total nitrogen and total phosphorus from land uses and locations within their jurisdictions through their MS4s to the Santa Margarita River, Estuary, and tributaries. MS4 dischargers are regulated by National Pollutant Discharge Elimination System (NPDES) permit requirements in San Diego Water Board Order No. R9-2013-0001, as amended by Order Nos. R9-2015-0001 and R9-2015-0100 (Regional MS4 Permit), and the requirements of State Water Board Order No. 2013-0001-DWQ (Statewide Phase II MS4 Permit). The owners and operators of NPDES MS4s subject to this order include the following entities:

- County of Riverside
- City of Menifee
- City of Murrieta
- City of Temecula
- City of Wildomar
- County of Riverside Flood Control and Water Conservation District
- County of San Diego
- United States Marine Corps Base Camp Pendleton

MS4 agencies have land use authority over agricultural discharges and are responsible for dry weather flows, including those from agricultural land uses, that enter and are discharged from their MS4 systems.

Caltrans is not subject to this Investigative Order because their overall land footprint in the watershed is very small (less than one percent of the total Watershed area). Caltrans is regulated by the requirements of State Water Board Order No. 2012-0011-DWQ (As amended by Orders Nos. 2014-0006-EXEC, 2014-0077-DWQ, and 2015-0036-EXEC).

**18. Agricultural Discharges:** Owners and operators of agricultural operations in the Santa Margarita River Watershed are not subject to this Investigative Order. Agricultural discharges in the San Diego Region are subject to San Diego Water Board Order Nos. R9-2016-0004 and R9-2016-0005 (Regionwide Agricultural WDRs). The Regionwide Agricultural WDRs (R9-2016-0004 and R9-2016-0005) include strict discharge prohibitions, discharge specifications, receiving water limitations, and management practice requirements for agricultural operations. These provisions are expected to result in the reduction and or elimination of total nitrogen and total phosphorus loading to surface water and groundwater from agricultural sources to the Santa Margarita River and Estuary.

Regionwide Agricultural WDRs require agricultural operations to implement monitoring of ambient Santa Margarita River water quality and ecosystem health in drainages influenced by agricultural land use ensuring that illicit agricultural discharges are detected. Monitoring plans have been submitted to the San Diego Water Board by commercial agricultural operations in the Santa Margarita Watershed including sites in Sandia Creek and Devils Creek.

**19. Rainbow Creek TMDL:** The San Diego Water Board Adopted the Rainbow Total Maximum Daily Loads (TMDLs) for Total Nitrogen and Total Phosphorus to address water quality impairments in Rainbow Creek. The Rainbow Creek TMDL is being implemented through the Regionwide Agricultural WDRs and the Regional MS4 permit. Monitoring is being conducted in the Rainbow Creek by the County of San Diego as required by the Regional Phase I MS4 permit to determine their MS4 nutrient loading into Rainbow Creek.

- 
- a. A multi-year Estuary Nutrients Project development process with meetings with stakeholders and the public.

**b. Monitoring and Assessment of Estuary:** Estuary monitoring and assessment must be implemented in accordance with the applicable guidelines provided in Section 12.3 of the Draft Staff Report (Appendix A). The Monitoring and Assessment Workplan must include:

- i. Monitoring of resurfacing groundwater discharge rates and groundwater total nitrogen and total phosphorus mass loading into the Estuary, to confirm that resurfacing groundwater is no longer a significant source of nutrient loading to the Estuary. Resurfacing groundwater from the former Stuart Mesa Agricultural Fields and the Santa Margarita Valley Basin must be monitored.
- ii. Monitoring of Estuary ambient water quality conditions and trends towards meeting numeric targets (Table 1) within the three segments of the Estuary (Appendix B – Figure 2).
  - a. Monitoring of flow and total nitrogen and total phosphorus mass loading into the Estuary from upstream sources, including from Rainbow Creek, Sandia Creek, and Devils Creek.
  - b. Monitoring of Estuary ambient water quality conditions, including year-round continuous measurement of dissolved oxygen concentrations and saturation, water temperature, pH, salinity/conductivity, and water depth. Continuous year-round dissolved oxygen concentration and saturation monitoring (at 15-minute intervals) must occur at two sites (adjacent to I-5 bridge and Stuart Mesa bridge) and at depths adequate to determine attainment of EST, MIGR, RARE and EST beneficial uses.
  - c. Monthly (April to October) monitoring of total suspended solids, chlorophyll a, turbidity, and Estuary mouth condition (i.e., physical presence of berm).
  - d. Monthly (April to October) monitoring of macroalgal biomass in the Estuary in accordance with the following guidelines:
    - 1) Measurements must be made in the intertidal and or subtidal within the three regions of the Estuary: 1) below I-5 bridge, 2) above Stuart Mesa bridge until vegetation changes, 3) and between the two bridges (Appendix B- Figure 2).
    - 2) A total of at least 30 square meter grid samples for macroalgal biomass must be collected throughout the Estuary using a stratified random distribution according to size of each of the three Estuary regions.
  - e. Monitoring of Estuary to determine Benthic Community Condition:

- 1) Benthic Community Condition sampling must take place at depths that align with the macroalgal sampling (so that relationships between the Benthic Community Condition Score and other parameters are logically inferred).
- 2) Monitoring must take place at three randomly selected sites for each of three regions in the Estuary.
- 3) Sampling must take place at least once per year in the summer.
- 4) Sediment grain size, sediment total organic carbon, sediment total nitrogen, and sediment total phosphorus samples must be collected at each site.

Estuary monitoring requirements are summarized in Appendix C.

**c. Monitoring and Assessment of Santa Margarita River and Watershed**

- i. The Monitoring and Assessment Workplan must include monthly (April to October) monitoring of the Santa Margarita River and major tributaries to determine flow and ambient water quality conditions relevant to eutrophication in the Estuary. Parameters to be measured must include: water temperature, conductivity, dissolved oxygen, pH, benthic algal biomass, ash free dry mass, chlorophyll a, shading canopy, total dissolved solids, total suspended solids, turbidity, flow, total nitrogen, total phosphorus concentrations (dissolved and whole water), and total nitrogen and total phosphorus mass loading.
  - a. Monitoring must be temporally representative of flows and tides (capturing monthly, weekly, daily, hourly temporal variability in flow) to demonstrate if total nitrogen and total phosphorus loads are being sufficiently reduced to meet Estuary numeric targets.
  - b. Monitoring locations on the main stem of the Santa Margarita River and major tributaries must include at least one monitoring site for Camp Pendleton, San Diego County, and Riverside County (Appendix B – Figure 1). The monitoring site must be positioned at the downstream-most point along the Santa Margarita River or major tributary within a Discharger's jurisdiction, such that the downstream site is representative of upstream sources of nutrients in the Discharger's jurisdiction. Dischargers may consider including other upstream sites located along the River or tributary, such that the upstream site(s) allows the Dischargers to identify specific drainages or tributaries contributing to exceedances of WQOs and draft Estuary TMDLs. The frequency of monitoring may be reduced over time, with the approval of the San Diego Water Board Executive Officer, following a minimum of three representative water years of monitoring based on a comparison with available meteorological data.

- c. A minimum of 33 samples should be collected monthly (April to October) for the determination of benthic algal biomass, ash free dry mass, and chlorophyll a following the guidelines of the most recent Surface Water Ambient Monitoring Program (SWAMP) protocol for sampling streams. The additional sampling effort beyond the 11 samples required under the SWAMP algal biomass sampling protocol will provide more reliable data given the high algal biomass spatial heterogeneity observed in the River.
- d. Dischargers must determine dry-weather nutrient loading into the Santa Margarita River from Rainbow Creek, Sandia Creek, and Devils Creek.

Santa Margarita River monitoring requirements are summarized in Appendix C.

**d. Estuary and Watershed Monitoring and Assessment Workplan Submissions:** The Estuary Monitoring and Assessment Workplan must include the following:

- i. Maps showing proposed monitoring locations and associated GIS data.
- ii. List of monitoring parameters.
- iii. Frequency of monitoring events.
- iv. Methods to be used to collect and analyze monitoring data.
- v. A Quality Assurance Project Plan (QAPP) describing the project objectives and organization, functional activities, and quality assurance and quality control protocols for the monitoring. The monitoring, sampling and analytical methods must be consistent with the [State Water Board Surface Water Ambient Monitoring Program \(SWAMP\) QAPP and data management protocols](#).
- vi. An assessment of trends with projections for when the numeric targets would be achieved based on those data collected.

**2. IMPLEMENTATION OF THE MONITORING AND ASSESSMENT PROGRAM PLAN.** The Dischargers must begin implementation of the Monitoring and Assessment Workplan no later than 60 days after receiving written notification from the Executive Officer that the Plan satisfies the conditions of this Order.

**3. MONITORING AND ASSESSMENT PROGRAM REPORTS.** The Dischargers must submit annual Monitoring and Assessment Program Reports (Monitoring Reports) by January 31 of each year beginning in 2020. The Monitoring Reports must include:

- a. Answers to the Monitoring Questions, with scientifically defensible evidence to support the conclusions. Answers to monitoring questions must include: analyses and discussion of resurfacing groundwater discharge rates and nutrient loading into the Estuary, ambient water quality conditions in the River, total nitrogen and total phosphorus (dissolved and whole water) concentrations and mass loading to the River, ambient water quality conditions in the Estuary, total nitrogen and total phosphorus mass loading to the Estuary, attainment of macroalgal biomass, dissolved oxygen, and Benthic Community Condition numeric targets in the Estuary.
  - b. Raw field data, laboratory data reports, GIS data, and associated QA/QC performance reports.
  - c. Report on nutrient mass loading to the River from agricultural drainages including but not limited to Rainbow Creek, Sandia Creek, and Devils Creek.
4. **COMPLIANCE DATES.** The following is a list of the compliance dates for activities presented in the preceding Directives:

**Table 3**  
**Investigative Order Compliance Dates**

Activity	Due Date
Submit Monitoring and Assessment Program Workplan	Within six months of issuance of the Investigative Order
Begin Monitoring and Assessment	Within 60 days of receiving Executive Officer's approval of Monitoring and Assessment Workplan
Implement Monitoring and Assessment Program	Monthly (April through October) for ten years beginning in 2019 and ending in 2028.
Submit Annual Monitoring Reports	Each January 31 from 2020 through 2029.

5. **PENALTY OF PERJURY STATEMENT:** All documents submitted to the San Diego Water Board under this Order must be signed by the Discharger's duly authorized representative, and must include the following statement by the official, under penalty of perjury, that the report is true and correct to the best of the official's knowledge.

*"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations."*

- 6. DOCUMENT SUBMISSIONS:** Submit one electronic, searchable PDF copy of all documents required under this Order to [SanDiego@waterboards.ca.gov](mailto:SanDiego@waterboards.ca.gov), with the subject line "Santa Margarita River Estuary and Watershed Monitoring and Assessment Program Submission-ECM PIN 650655 attn: RPPU."

Hardcopies for informational purposes only can be sent to:

Executive Officer  
California Regional Water Quality Control Board, San Diego Region  
2375 Northside Drive, Suite 100  
San Diego, California 92108  
Attn: Municipal Storm Water Program and Impaired Waters Restoration Team ECM Place  
ID: CW-650655

- 7. CHANGES:** This Investigative Order may be amended, rescinded, or updated by the San Diego Water Board. The Dischargers may propose changes or alternatives to the requirements in this Investigative Order if a valid and scientifically defensible rationale for the changes are shown. The filing of a request by a Discharger for amending, rescinding, or updating this Investigative Order, or notification of planned changes or anticipated noncompliance does not stay any condition of this Investigative Order.

The San Diego Water Board shall consider after five years whether additional parties should be named or if existing parties should be removed. At 2030, if not sooner, the San Diego Water Board shall evaluate whether continuation of this Investigation or other action is necessary to determine the Estuary conditions and ensure eutrophication is no longer causing impairments.

## **8. PROVISIONS**

- a. Good Operation and Maintenance:** The Dischargers must maintain in good working order and operate as efficiently as possible any monitoring system, site or control system installed to achieve compliance with this Order's requirements.

- b. Contractor/Consultant Qualifications: All field and laboratory work, reports, plans and documents required under this Order must be prepared under the direction of appropriately qualified professionals. A statement of qualifications and license numbers, if applicable, of the responsible lead professional and all professionals making significant and/or substantive contributions must be included in the report submitted by the Dischargers. The lead professional performing engineering and geologic evaluations and judgments must sign and affix their professional geologist or civil engineering registration stamp to all technical reports, plans or documents submitted to the San Diego Water Board.
- c. Additional Receiving Water Monitoring and Reporting Requirements: All contractors and subcontractors performing sample collection and /or analyses must comply with the following:
  - i. Quality Assurance Project Plan: Prior to commencing monitoring activity the Dischargers must prepare and submit a QAPP to the San Diego Water Board for review and approval. The QAPP must be prepared by a qualified individual and follow the requirements of the *2008 Surface Water Ambient Monitoring Program Quality Assurance Program Plan*<sup>1</sup> as well as current standard of care. The SWAMP Advisor QAPP-creation tool, as well as a QAPP template and review checklist,<sup>2</sup> must be used to assist in the development of the QAPP.
  - ii. Approved QAPP: All monitoring activities must comply with the requirements of the QAPP. All reports containing monitoring data collected under the QAPP must include a QAPP Compliance Report that describes and documents how the QAPP requirements were met.
  - iii. California Environmental Data Exchange Network Reporting: All surface water data, including laboratory and field QC results, collected under the QAPP must be submitted to the California Environmental Data Exchange Network (CEDEN). CEDEN data templates and documentation are available at: <http://ceden.org>. Prior to data collection, the CEDEN help desk must be contacted to register the project, obtain training on relevant data templates, and identify the Regional Data Center contractors used for data delivery.
  - iv. Monitoring and Assessment Program Kick-Off Meeting: Prior to conducting monitoring activities, a kick-off meeting must be held with representatives of the Dischargers, the San Diego Water Board, the monitoring personnel, and the analytical laboratory to discuss topics including, but not limited to:

---

<sup>1</sup> [http://www.waterboards.ca.gov/water\\_issues/programs/swamp/tools.shtml#qa](http://www.waterboards.ca.gov/water_issues/programs/swamp/tools.shtml#qa)

<sup>2</sup> <http://swamp.mpsl.mlml.calstate.edu/resources-and-downloads/quality-assurance/quality-assuranceproject-plan-guidance>.

- a) Project scope.
- b) Surface Water Ambient Monitoring Program Quality Assurance Program Plan requirements.
- c) QAPP requirements.
- d) Monitoring and sampling requirements including, but not limited to, calibration, sampling protocols, holding times, QA/QC samples, and laboratory QA/QC requirements.
- e) Deadlines for delivery of data and data delivery requirements.
- v. Laboratory Qualifications: All samples must be analyzed by laboratories accredited by the Environmental Laboratory Accreditation Program<sup>3</sup> (ELAP) using methods approved by the USEPA for the type of analysis to be performed. All laboratories must maintain QA/QC records for San Diego Water Board review.
- vi. Laboratory Analytical Reports: Any report presenting new analytical data is required to include the complete Laboratory Analytical Report(s). The Laboratory Analytical Report(s) must be signed by the laboratory director and contain:
  - a) Complete sample analytical reports.
  - b) Complete laboratory QA/QC reports.
  - c) A discussion of the sample and QA/QC data.
  - d) A transmittal letter indicating whether or not the analytical work was supervised by the director of the laboratory, and contain the following statement, if true, "All analyses were conducted at a laboratory certified for such analyses by the California Department of Public Health in accordance with current USEPA procedures."

---

<sup>3</sup> The Environmental Laboratory Accreditation Program has been transferred to the California State Water Resources Control Board. More information is available here:

[https://www.waterboards.ca.gov/drinking\\_water/certlic/labs/](https://www.waterboards.ca.gov/drinking_water/certlic/labs/)

## 9. NOTIFICATIONS

- a. Enforcement Notification: Failure to comply with requirements of this Order or submission of a falsified report is a misdemeanor and may subject Dischargers to imposition of administrative civil liability pursuant to Water Code sections 13268 in an amount not to exceed \$1,000 for each day.

I, David W. Gibson, Executive Officer, do hereby certify the forgoing is a full, true, and correct copy of Investigative Order No. R9-2019-TBD, issued on DATE.

TENTATIVE  
DAVID W. GIBSON  
Executive Officer

Appendix A: *Draft Staff Report - Nutrients Total Daily Maximum Load Project for Santa Margarita River Estuary, California*, prepared by the California Regional Water Quality Control Board – San Diego Region, TBD.

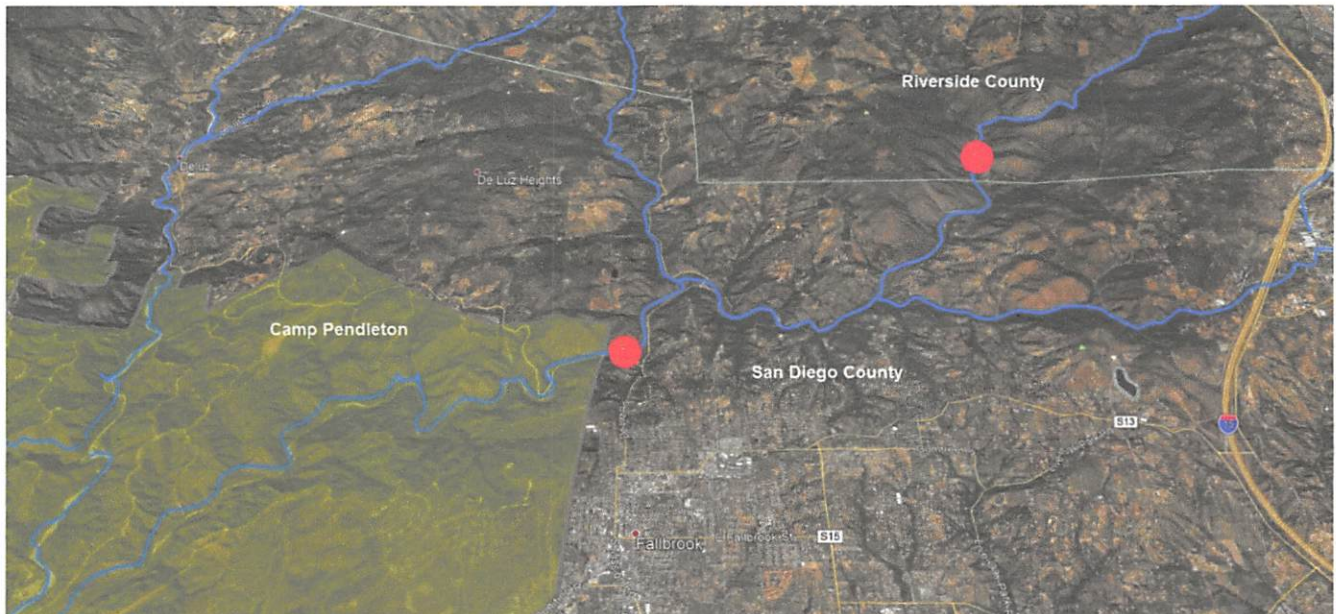

Appendix B: Figure 1. Surface Water Monitoring Locations on the Santa Margarita River. Figure 2. Santa Margarita River Estuary Surface Water Monitoring and Groundwater Monitoring Locations.

Appendix C: Summary of Requirements for Estuary and Watershed Monitoring and Assessment.

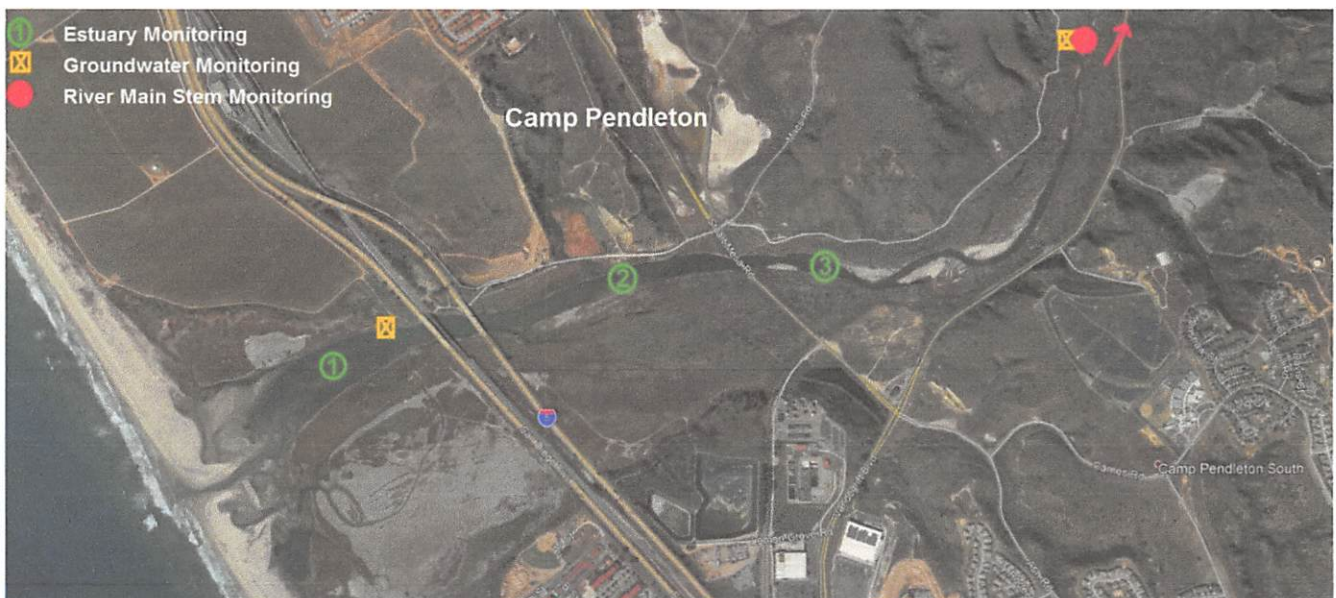

**APPENDIX A: Santa Margarita River Estuary, California.  
Nutrients Total Maximum Daily Load Project Draft Staff  
Report (July 2018)**

## **APPENDIX B: Santa Margarita River and Estuary Monitoring Locations**

**Figure 1.** Example Discharger main-stem monitoring locations along the Santa Margarita River.

**Figure 2.** Three Estuary segments to be monitored are indicated by green circles with numbers, general location for surfacing groundwater monitoring stations are shown as gold-colored boxes with an "x" in the center, and approximate location of a nutrient mass loading station is shown as a solid red circle. Arrow indicates that the mass loading and groundwater monitoring sites may be located further upstream within the confines of U.S. Marine Corps Base Camp Pendleton.

## **APPENDIX C: Summary of Requirements for Estuary and Watershed Monitoring and Assessment**

Parameter	Duration/Time Frame	Depth	Sites	Frequency	Method
Resurfacing Groundwater Discharge Rates and TN and TP loading into Estuary	As needed	N/A	Former Stuart Mesa Agricultural Fields & Santa Margarita Valley Basin	Yearly	Applicable Standard Methods
Estuary Dissolved Oxygen (mg/l and percent saturation), temperature, pH, Salinity/conductivity, and water depth.	Year round	Near-surface ~ 0.5 meters	2 sites: I-5 bridge and Stuart Mesa bridge	Continuous monitoring at 15 min. intervals	Data sonde with optical sensor
Estuary surface water total suspended solids, chlorophyll a, and turbidity and mouth condition.	April-October	Near-surface ~ 0.5 meters	2 sites: I-5 bridge and Stuart Mesa bridge	Monthly	Applicable SWAMP and other Standard Methods
Estuary Macroalgal Biomass, Macroalgal, total suspended solids, surface water TN and TP concentrations, turbidity, water depth, and mouth condition.	April – October	Intertidal and or subtidal within the three regions of Estuary - below I-5 bridge, above Stuart Mesa bridge until vegetation changes, and between the two bridges.	A total of 30 samples for each parameter collected throughout the estuary using a stratified random distribution according to size of each of the three Estuary regions. Macroalgal biomass samples harvested representatively from each of three regions.	Monthly	Macroalgal collection and processing procedures used by McLaughlin <i>et al.</i> (2012, 2013a, 2013b) and other applicable regional or statewide protocols.
Estuary Benthic Community Condition, Sediment %OC, sediment %N and %P, and sediment grain size.	Standard indexing period	At depths that align with the Macroalgal sampling (so that relationships between Benthic Community Condition and other parameters are logically inferred).	Three randomly distributed sites for each of three regions in estuary.	Once per year in the summer.	Standard methods (Sediment Quality Assessment Technical Support Manual, SCCWRP Tech Report 582, 2009). Once accepted methods are developed to monitor algal biomass effects (eutrophication effects) upon benthic macroinvertebrate communities, they may be considered for use.

Parameter	Duration/Time Frame	Depth	Sites	Frequency	Method
Santa Margarita River Flow, TN and TP Loading into Estuary (Including dry-weather nutrient loading from Rainbow Creek, Sandia Creek, and Devils Creek into Santa Margarita River).	April - October	N/A	A minimum of one Mass Loading site for San Diego County, Riverside County, and USMC Base Camp Pendleton. Mass loading measurements at lowermost site conducted at outgoing tide (MLLW).	Monthly	As per Regional MS4 Permit mass loading monitoring requirements
Santa Margarita River water flow, temperature, conductivity, dissolved oxygen, pH, benthic algal biomass, ash free dry mass, chlorophyll a, shading canopy, and ambient TN and TP concentrations.	April - October	N/A	A minimum of one site for San Diego County, Riverside County, and USMC Base Camp Pendleton. .	Monthly	Applicable SWAMP and Standard Methods

Dear Conservation Partners,

You are invited to participate in the National Conservation Planning Partnership (NCP) Listening Session to be held in Wyoming on Tuesday, October 16, 2018, from 8 am to 4 pm (MDT). Those unable to attend in person will be able to participate remotely via Adobe Connect. NCP needs and values your feedback, opinions and ideas to help advance conservation planning to the next level in California and across the nation.

Conservation planning continues to be the backbone of our partnership technical assistance with California's policy, training and communications emphasizing the core importance of good science and planning behind our approach and funding decisions.

In 2009, California and our partners embarked on the journey to refocus on conservation planning. NCP was forged based on the working principles of conservation planning and other successful planning states. For example, since 2015 CARCD and NRCS has presented the joint Excellence in Conservation Planning Awards at the CARCD Conference. The Awards celebrate the innovation, commitment and dedication of individuals and partnerships that help farmers and ranchers apply conservation.

Since its formation in FY 2015, NCP has worked to reinvigorate conservation planning on a national scale, and to enhance and strengthen its role in our Mission and in our partnerships. California was one of the states invited to share our efforts in January 2015 at the Conservation Planning Summit and provide input into the national effort.

Since then, NCP, with the help of five subcommittees, has been working to address training gaps, develop technology and tools, address communication needs, strengthen accountability, and provide policy – to ensure we are meeting our customers' expectations for the challenges ahead. We applaud this national support to our efforts here in California and we highly encourage you to participate in the listening session and voice your valued feedback.

Click here to join the Listening Session by Adobe Connect [2]. Audio will broadcast through Adobe Connect (VoIP). The listening session will be recorded. Please note that you do not have to be on the USDA system to join the session. You can download the app to your computer to participate.

Sincerely,

\_Karen Buhr \_

Executive Director

California Association of Resource Conservation Districts

To: Rose Corona <[rose.corona@teamrcd.org](mailto:rose.corona@teamrcd.org)>

This is a message from the California Regional Water Quality Control Board, San Diego Region (9).

To: Interested Persons

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) intends to hold a public workshop on November 8, 2018, to discuss and receive input from interested persons on the potential incorporation of an Integrated Planning Framework (IPF) approach into the Regional MS4 Permit. Two or more San Diego Water Board members may be present in the audience at the informational workshop, but no actions or voting will occur. Additional information on the IPF approach is included on the attached Notice of Public Workshop.

The Public Workshop is scheduled for:

Thursday November 8, 2018

10:00 a.m. to 12:00 p.m.

San Diego Regional Water Quality Control Board

Board Meeting Room

2375 Northside Drive, Suite 100

San Diego, California 92108

For additional information, interested parties are encouraged to:

- Visit the San Diego Water Board's website (link provided below) at:

[https://www.waterboards.ca.gov/sandiego/water\\_issues/programs/stormwater/sd\\_stormwater.html](https://www.waterboards.ca.gov/sandiego/water_issues/programs/stormwater/sd_stormwater.html)

- Subscribe to one of the San Diego Water Board's Orange County

MS4, Riverside MS4, San Diego MS4 Permit electronic mailing lists by enrolling at the following website:

[https://www.waterboards.ca.gov/resources/email\\_subscriptions/reg9\\_subscribe.html](https://www.waterboards.ca.gov/resources/email_subscriptions/reg9_subscribe.html)

If you have questions or concerns, please contact Ms. Erica Ryan by phone at 619-521-8051 or by email at [Erica.Ryan@waterboards.ca.gov](mailto:Erica.Ryan@waterboards.ca.gov).

---

## California Regional Water Quality Control Board, San Diego Region

### NOTICE OF PUBLIC WORKSHOP

#### **Incorporation of Integrated Planning Framework (IPF) Approach into the Regional Municipal Separate Storm Sewer Systems (MS4) Permit**

NOTICE IS HEREBY GIVEN that the California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) will hold a public workshop on November 8, 2018, to discuss and receive input from interested persons on the incorporation of an Integrated Planning Framework (IPF) approach into the Regional MS4 Permit. Two or more San Diego Water Board members may be present in the audience at the informational workshop, but no actions or voting will occur.

Details on the workshop time and location are provided below.

**Thursday November 8, 2018**

10:00 a.m. to 12:00 p.m.

San Diego Regional Water Quality Control Board  
Board Meeting Room

2375 Northside Drive, Suite 100

San Diego, California 92108

<https://www.waterboards.ca.gov/sandiego/>

#### **Background**

Storm water and non-storm water discharges in the San Diego Region are regulated by the Regional MS4 Permit, Order No. R9-2013-0001, NPDES No. CAS0109266, *National Pollutant Discharge Elimination System (NPDES) Permit and Waste Discharge Requirements for Discharges from Municipal Separate Storm Sewer Systems (MS4s) Draining the Watersheds within the San Diego Region*. The Regional MS4 Permit regulates agencies (referred to as Copermittees) located in the San Diego Region. The Regional MS4 Permit expired on June 27, 2018 but remains in effect under an administrative extension until it is reissued by the San Diego Water Board. The Copermittees submitted a Report of Waste Discharge (ROWD) in application for NPDES permit reissuance. The ROWD summarizes the Copermittees' existing storm water programs and makes recommendations for updates and other modifications to the Regional MS4 Permit.

At the request of the City of San Diego, the San Diego Water Board is considering development of provisions for incorporation into the Regional MS4 Permit to allow Copermittees the option to voluntarily develop and implement an IPF approach to meeting permit compliance obligations while optimizing infrastructure investments through appropriate sequencing of work. The United States Environmental Protection Agency (USEPA) has identified the IPF approach as a method to integrate resources for meeting various storm water and wastewater NPDES permit regulatory requirements issued under the Federal Clean Water Act. An IPF identifies efficiencies from separate wastewater and stormwater programs and sequencing of investments so that the highest priority projects come

first. The IPF approach is also intended to lead to more sustainable and comprehensive solutions that improve water quality. Additional information on IPF can be found on the USEPA web site:

<https://www.epa.gov/npdes/integrated-planning-municipal-stormwater-and-wastewater>

Representatives of USEPA, Orange County, Riverside County, and San Diego County Copermittees, Non-government Environmental Organizations, and other interested persons are invited to attend to discuss the inclusion of an IPF approach into the Regional MS4 Permit.

#### **Stakeholder Participation at Workshop**

Participation at this meeting will be structured to provide an appropriate level of participation by key stakeholder groups. The meeting format will allow for formal presentations while preserving staff's ability to ensure a collaborative discussion on the agenda topic. USEPA will summarize significant elements of the IPF approach and why IPF should be considered for inclusion in the Regional MS4 Permit. The San Diego Water Board staff will summarize how IPF could get incorporated into the Regional MS4 Permit and how IPF might get implemented. San Diego Coastkeeper will present the non-government environmental organization perspective on IPF. City of San Diego staff will present the benefits of IPF. Copermittees and any interested persons, will have an opportunity to participate in the round table discussion. The San Diego Water Board is interested in hearing feedback regarding incorporation of an IPF approach option in the Regional MS4 Permit, however no formal responses to any comments received will be prepared following the end of the workshop.

#### **Electronic Mail List Subscription**

The San Diego Water Board has established an electronic mail list specifically for information and notices on the development of proposed changes to the Regional MS4 Permit. The San Diego Water Board will use the email list to notify interested persons of upcoming important events and the availability of on-line documents. Persons interested in receiving future notices and information on this specific project can subscribe to one (1) of the electronic mail lists entitled "*Orange County MS4 Permit*," "*Riverside County MS4 Permit*," or "*San Diego MS4 Permit*" located on the San Diego Water Board website at: [http://www.waterboards.ca.gov/resources/email\\_subscriptions/reg9\\_subscribe.shtml](http://www.waterboards.ca.gov/resources/email_subscriptions/reg9_subscribe.shtml)

#### **Parking and Accessibility**

There is free 2-hour parking to the east of the building, labelled Visitor Parking, which is enforced at all times. Attendees may park in the parking garage at the rate of \$1.00 per hour (credit card payment only) with a maximum of \$7.00 per day. Cars parked in the Costco/Ikea parking lot will be towed at the owner's expense. The San Diego Water Board office is accessible to persons with disabilities. Persons requiring additional accommodations should contact Chris Blank at [Chris.Blank@waterboards.ca.gov](mailto:Chris.Blank@waterboards.ca.gov) or 619-521-3382 at least five (5) days prior to the workshop.

#### **Information Regarding Workshop**

For questions or comments, please contact Erica Ryan by phone at (619) 521-8051, or by email at [Erica.Ryan@waterboards.ca.gov](mailto:Erica.Ryan@waterboards.ca.gov).

OCTOBER 2018 ISSUE

[[3](#)]

\_Feather River, California. Photo copyright Tim Palmer.\_

October 2nd marked the 50th anniversary [[4](#)] of the Wild & Scenic Rivers Act, which protects over 12,000 miles of 200+ rivers. River Network is proud to support local water champions and groups from around the country [[5](#)] doing vital work on wild and scenic rivers. Earlier this year, we reported on the latest wild and scenic designation [[6](#)] in Montana, as well as about outstanding individuals who are helping to ignite the next generation of river champions—Chad Brown of Soul River, Inc [[7](#)] and Gary Ananian of the Kern River Conservancy [[8](#)]. Additionally, with funding from Patagonia, River Network awarded four grassroots organizations with small grants. Read more [[9](#)] about how these groups are engaging their communities to ensure a future with wild and scenic rivers.

LEARN THIS FALL

[[10](#)]

Start a new chapter for your organization this fall. Learn best practices in six essential areas of nonprofit management in DEVELOPING EFFECTIVE RIVER AND WATERSHED ORGANIZATIONS [[11](#)], a six-month training series for executive directors and board leaders. The series starts October 11th and is a premium series for paid River Network members. Sign up now. [[12](#)]

[[13](#)]

MEET OUR TEAM [[14](#)]

Meet Katherine Baer, River Network's Science and Policy Director. Katherine leads efforts to improve policies for clean and reliable water. This year, she has led River Network's engagement with groups protecting wild and scenic rivers across the U.S. Read more about Katherine's work. [\[15\]](#)

[\[16\]](#)

NEW DEADLINE: OCTOBER 31ST [\[17\]](#)

Been busy? We hear you! We are extending the deadline for River Rally 2019 proposals to October 31st. Presenters are invited to submit up to two workshop proposals, but each proposal must be submitted individually. Read the guidelines and submit a workshop proposal here. [\[18\]](#)

GET YOUR PROJECT FUNDED [\[19\]](#)

Are you planning, designing, or implementing on-the-ground restoration projects that will restore river flows and/or recharge ground water? Would you like the opportunity to share your projects with businesses who may be interested in providing support for your projects? If the answer is "Yes!" be sure to check out the Business for Water Stewardship Project Bank [\[20\]](#) a new opportunity for paid members [\[21\]](#) of River Network to use a national platform to attract funding.

MEET OUR NETWORK [\[22\]](#)

[\[23\]](#)

From urban water advocates to wild and scenic river champions, we are lucky to know and work with local heroes who safeguard water for our communities. We invite you to get to know outstanding water champions taking action for clean water and healthy rivers from coast to coast. Click here to meet Kira Davis. [\[24\]](#)

UPCOMING WEBINARS & EVENTS

Join us for these and more! See Events & Learning opportunities on our website [\[25\]](#).

BUILDING STRONG BOARDS [\[26\]](#)

OCTOBER 11, 1:00-2:30 PM EST. \_Do you have a committed board yet feel the internal effectiveness of your organization is not there? Even the most engaged board members need clarity and direction. Learn how to guide your board effectively.\_ Premium webinar open to paid River Network members only. Sign up. [\[27\]](#)

THE STRATEGIC PLANNING PROCESS [\[28\]](#)

NOVEMBER 8, 1:00-2:30 PM EST. \_Strategic planning is a disciplined approach to deciding what an organization is, what it does, and why it does it, with a focus on the future and the health of the organization.\_ Premium webinar open to paid River Network members only. Register here. [\[29\]](#)

COMMUNITY FUN FOR RIVERS [\[30\]](#)

OCTOBER 19-20. \_River Network is excited to partner with outdoor gear brand Cotopaxi for the "Love your Creek" challenge at the Questival adventure race in Boulder, Colorado. Teams will race across town collecting litter from creeks and ponds then meet at the mid-race checkpoint to tally their haul and sort recycling. \_Learn more. [\[31\]](#)

## FUNDRAISING BEST PRACTICES [32]

DECEMBER 13, 1:00-2:30PM EST. \_Fundraising offers donors the opportunity to invest in the change they want to see in the world. This session will explain the fundraising cycle, the importance of planning, fundraising strategies, and tips for building a strong development program. \_Premium webinar open to paid River Network members only. Register. [33]
